Following is the thread test (tar) to check required consistency of syrup (chashni). If no thread is formed, but there is stickiness in the syrup when tested, then it is 3/4 tar (thread). This consistency is generally used in dipping sweets like, gulabjamoon, boondi, jalebi, imarti, etc. Boil some more and when 1 tar forms, it is used in soaking pancake pancakes like malpua. On further boiling two tars are obtained and this is used in sweets like burfis, mohanthal, etc. At this stage a drop of syrup dropped on a plate will form a soft ball when cooled. After this stage do not stir briskly and continuously or the sugar will recrystallise. Still further boiling will form 2 1/2 to 3 tars and this syrup is used to get a white coating of sugar on sweets like balushahi, surti ghari, etc. At this stage when the syrup is dropped in a plate it will form a hard ball when cooled. Following are the steps shown to make sugar syrup (chashni) in the right way.

- a. Take sugar and water in the ratio of 2 : 1 1/2 unless otherwise mentioned.
- b. Put both in a deep saucepan to boil, stirring occasionally.
- c. When the mixture comes to a boil, add 1/2 cup milk.
- d. When a thick scum is formed on the surface of syrup, it is time to strain.
- e. Always use a metal strainer or moist cloth to strain the hot syrup, never plastic.
- f. Put back to boil, checking the consistency required as above.
- g. Check frequently, because once the first thread forms, it proceeds to thicken to the next stages very quickly.
- h. Use as required in the recipe. Make syrup side by side of making the recipe, reheating the syrup too many times will alter the texture of the resulting sweet dish. To save time, prepare the syrup on a second burner, while making the rest of the recipe. This will avoid excess wastage of time and unnecessary cooling off, of the fried flours, etc. as the recipe demands.

Ingredients

one cup semolina/rava
one cup maida
1/2 cup rice flour
4-5 green chillies finely chopped
3/4 inch ginger chopped fine
1 1/2 tspn jeera slightly crushed (enough to bring out its flavor)
salt to taste
good pinch asafoetida
2-3 chopped onions
a bunch cashews
oil to make dosas

Method

- Mix rava, maida, rice flour together into a thick batter adding little water at a time so no lumps are formed. Mixing by hand is a good idea if you don't have a whisk or electric mixer. Add salt, crushed cumin asafoetida and leave in a warm spot for six to seven hours at least.
- When ready to eat, spray a non-stick pan lightly with oil and warm.
- Thin out the batter to the consistency where it can be drizzled onto the pan with a spoon. Drop chopped green chillies and ginger into batter.
- Sprinkle some of the cut onions and cashews onto the pan and now continuing on low-medium heat, drizzle the batter such that there is a lattice work effect. A lot of holes is just the thing. Dribble a bit of oil around it and when the edges start turning brown coax it off the pan with a flat, wide spatula and flip it over. Remove in a few minutes and make more.
- For the plain rava dosa leave out the onions.

251. Didir Dosa

Ingredients

3 measures of rice flour
1 measure of urad flour

Method

Mix well so no lumps are formed. Salt to taste. Leave covered in a large pot overnight. Make thin crepes, preferably in non-stick pan.

252. Dosai

Rice 1 1/2 cups
Urad Daal 1/2 cup
Salt 2 tsp.

Method

- Soak the rice and daal separately in slightly warm water for 2 - 8 hours.
- Grind separately to a smooth paste and mix in a large vessel with salt. Mix thoroughly (use blender if possible).
- Ferment for 12 hours.

253. Basic Curry Sauce

Ingredients

- 3 tablespoons vegetable oil or ghee (clarified butter)
- 1 medium onion - finely chopped
- 4 cloves garlic - peeled and sliced
- 1.5 inch piece root ginger - peeled and thinly sliced (it should look about the same volume as the garlic)
- (optional) 2 mild fleshy green chillies - de-seeded and veined then chopped
- half teaspoon turmeric powder
- half teaspoon ground cumin seed
- half teaspoon ground coriander seed

- 5 tablespoons plain passata (smooth, thick, sieved tomatoes, US = purée) *or* 1 tablespoon concentrated tomato purée (US = paste) mixed with 4 tablespoons water

Method

Heat the oil in a heavy pan then add the chopped onion and stir for a few minutes with the heat on high.

Add the ginger, garlic and green chilli (if using). Stir for 30 seconds then put the heat down to very low.

Cook for 15 minutes stirring from time to time making sure nothing browns or burns.

Add the turmeric, cumin and coriander and cook, still very gently, for a further 5 minutes. Don't burn the spices or the sauce will taste horrid - sprinkle on a few drops of water if you're worried.

Take off the heat and cool a little. Put 4 fl oz cold water in a blender, add the contents of the pan and whizz until **very** smooth. Add the passata and stir.

Put the puréed mixture back into the pan and cook for 20 - 30 minutes (the longer the better) over very low heat stirring occasionally. You can add a little hot water if it starts to catch on the pan but the idea is to gently "fry" the sauce which will darken in colour to an orangy brown. The final texture should be something like good tomato ketchup. Warning - it WILL gloop occasionally and splatter over your cooker, it's the price you have to pay!

254. Biryani

Ingredients: (serves 6)

2lbs Spring Lamb (cleaned and cut into medium size pieces)

4ozs Yougurt

4ozs Ghee

1lb Rice (washed)

1oz Ginger & Garlic (equal amounts crushed)

1 Lemon

1oz Almonds (ground)

2 Cinamon sticks

4-6 Cardimons

1oz Milk

Qtr tspn Safron

2-3 Green Chillies

Half tspn Black Zeera

Corriander and Fried Onions to Garnish

Method:

To the mixture add half a teaspoon each of chilli powder and termeric. Marinate for at least 4-6 hours in the fridge.

Fry the onions in ghee until golden brown and crisp. Drain away any excess ghee and then remove the onions and spread over a large plate. This should keep the onions crispy. Once they have cooled crush the onions with your fingers and add this to the marinated meat mixture.

In a large pan half fill with water and add salt, whole garam masala and one green chilli. Bring this to the boil and add the washed rice and cook until the water boils. Once the water has boiled drain the rice in a colander and rinse with a little cold water.

Grease the saucepan generously with ghee and transfer the meat mixture. Level the surface and now spread the rice evenly over the meat. Squeeze the lemon and pour the juice over the rice. Warm the milk and crush the safron into it. Pour the milf/safron mixture over the rice. Dot generously with ghee. To garnish spread the fried onions and corriander over the rice. Cover the saucepan tightly. Allow to steam on high heat for about 10 minutes and then lower the heat and cook for another 1 and a half to 2 hours. Before removing the pan from the cooker ensure that there is no moisture left in the meat.

This can be checked by simply listening for a sizzling sound. If there is no sizzling then the Biryani is ready.

Biryani is traditonally served with Mirch Salan and Yoghurt Chutney.
