Buckwheat

Nutty in texture, this tasty alternative to rice is actually a grass.

Rice

There are many different types of rice. Basmati is thought to have a superior flavour, fragrance and texture, and a mixture of basmati and wild rice (not a true rice, but the seeds of an aquatic grass) works well.

Bottled and Canned Goods

The store cupboard should be the backbone of your vegetarian kitchen. Stock it sensibly, and you'll always have the wherewithal to make a tasty, satisfying meal.

Canned pulses

Chick-peas, cannellini beans, green lentils, haricot beans and red kidney beans survive the canning process well. Wash in cold running water and drain well before use.

Canned vegetables

Although fresh vegetables are best for most cooking, some canned products are very useful. Canned tomatoes are an essential ingredient to have in the pantry. Additional useful items to include are sweetcorn and water chestnuts

Wholegrain or Dijon mustards are widely used both in cooking and in salad dressings

Oils

Groundnut or sunflower oils are bland and will not mask or overpower delicate flavours

Sun-dried tomatoes

These sweet tomatoes baked and dried in the sun, are sold in bags or in jars, steeped in olive oil

Tahini paste

Made from ground sesame seeds, this paste is used in Middle Eastern cookery

Tornato purree.

This concentrated tomato paste is sold in cans, jars or tubes. A version made from sun-dried tomatoes is now available

Stuffed Tomatoes

INGREDIENTS

Serves 4

8 English (small) tomatoes, or 3 beef (large) tomatoes
4 hard-boiled eggs, cooled and peeled
6 tbsp/90ml mayonnaise
1 tsp/5 ml garlic paste

salt and freshly ground black pepper
1 tbsp/15ml parsley, chopped
1 tbsp/15ml white breadcrumbs for the beef (large) tomatoes

METHOD

1-Skin the tomatoes, first by cutting out the core with a sharp knife and making a incision on the other end of the tomato. Then place in a pan of boiling water for 10 seconds, remove and plunge into a bowl of iced or very cold water (this latter step is to stop the tomatoes from cooking and going mushy).

2-Slice the tops off the tomatoes, and just enough of their bases to remove the rounded ends so that the tomatoes will sit squarely on the plate. Keep the tops if using small tomatoes, but not for the large tomatoes.

3-Remove the seeds and inside, either with a teaspoon or small, sharp knife. Mash the eggs with the mayonnaise, garlic paste, salt, pepper and parsley.

4-Fill the tomatoes, firmly pressing the filling down. With small tomatoes, replace the lids at a jaunty angle. If keeping to serve later, brush them with olive oil and black pepper to prevent from drying out. Cover with plastic film and keep.

NOTE

For large tomatoes, the filling must be very firm, so it can be sliced. If you make your own mayonnaise, thicken it by using more egg yolks. If you use shop-bought mayonnaise, add enough white breadcrumbs until the mixture is the consistency of mashed potatoes. Season well, to taste. Fill the tomatoes, pressing down firmly until level. Refrigerate for 1 hour, then slice with a sharp carving knife into rings. Sprinkle with chopped parsley.

30ml/2 tbsp butter
2 leeks, thin sliced
2 shallots, roughly chopped
225 g/8 oz fresh wild mushrooms
about 1.2 liters/ 2 pints/ 5 cups vegetable stock.
2.5 ml/1/2 tsp dried thyme

2- Heat the oil and butter in a large saucepan until foaming. Add the sliced leeks, chopped shallots and garlic and cook gently for about 5 minutes, stirring frequently, until softened but not coloured.

3- Chop or slice the fresh mushrooms and add to the pan. Stir over a medium heat for a few minutes until they begin to soften. Pour in the stock and bring to the boil. Add the porcini soaking liquid, dried thyme and salt and pepper. Lower the heat, half cover the pan and simmer gently for 30 minutes, stirring occasionally.

4- Pour about three-quarters of the soup into a blender or food processor and process until smooth. Return the processed soup to the soup remaining in the pan, stir in the cream and heat through. Check the consistency and add more stock if necessary. Season with salt and pepper. Serve hot, garnished with thyme sprigs.

COOK'S TIP: Porcini are ceps. Italian cooks would make this soup with a combination of fresh and dried ceps, but if fresh ceps are difficult to obtain, you can use other wild mushrooms such as chanterelles.

Title: Classic French Onion Soup

Serves: 4

Ingredients:

4 large onions
30 ml/2 tbsp sunflower or olive oil, or 15 ml/1 tbsp of each
25 g/1 oz/2 tbsp butter
900 ml/1 1/2 pints/3 3/4 cups vegetable stock

4 slices French bread
40-50 g/ 1 1/2-2 oz Gruyere or Cheddar cheese, grated
Salt and freshly ground black pepper

Directions:

2-Fry the onions briskly for a few minutes, stirring constantly.

3-Reduce the heat and cook gently for 45-60 minutes. At first, the onions need to be stirred only occasionally but as they begin to colour, stir frequently. The colour of the onions gradually turns golden and then more rapidly to brown, so take care to stir constantly at this stage so that they do not burn on the base

4-When the onions are a rich mahogany brown, add the vegetable stock and a little seasoning. Simmer, partially covered, for 30 minutes, then season with salt and pepper.

5-Preheat the grill and toast the French bread. Spoon the soup into four ovenproof serving dishes and place a piece of bread in each. Sprinkle with the cheese and grill for a few minutes until golden. Season with plenty of freshly ground black pepper.

Title: Chilled Vegetable - Avocado Soup

- 1-15 oz can spicy chili beans, undrained
- 12 oz canned vegetable juice
- 1/4 cup lime juice
- 1 large tomato, chopped
- 1 medium avocado, cut into cubes
- 1/2 cup chopped celery
- 1 tablespoon chopped parsley
- 1/2 teaspoon chili powder
- 2 tablespoons nonfat sour cream

Combine all ingredients, except sour cream in a large bowl. Mix well, cover and refrigerate for one hour. Serve with a dollop of sour cream. As prepared, 1 1/4 cups equals 264 calories, 11g fat. From Shape magazine.

You can also: Substitute black beans for chili beans, V-8 in glass instead of a can, and Tabasco for chili powder. Omit the avocado if you are watching the fat grams. Add 1 tablespoon of fresh chopped cilantro. Adjust for taste. Refreshing on hot days, an excellent filler food for snacking.

Chunky Vegetable Soup

- 2 teaspoons vegetable oil
- 1 cup chopped onion
- 2 garlic cloves, minced
- 7 cups water
- 1 tablespoon dried basil
- 3/4 teaspoon salt
- 1/2 teaspoon dried marjoram
- 1/2 teaspoon pepper
- 1 pound red potatoes, cut in 1 inch cubes
- 1/2 pound small carrots, cut in one inch pieces
- 1 (15 oz) can cannellini or other white beans, drained
- 1 can whole tomatoes, undrained and chopped
- 1 (10 oz) package frozen lima beans

- 1/2 cup cooked orzo (rice shaped pasta)
- 1/2 cup shredded part-skim mozzarella cheese

1. Coat a large Dutch oven (big soup pot) with cooking spray, add oil, and place over medium heat until hot.
2. Add onion and garlic, sauté 5 minutes or until tender
3. Add water and next 9 ingredients (water through lima beans); bring to a boil
4. Cover, reduce heat and simmer 20 minutes. Add orzo, cook uncovered another 10 minutes

Ladle in individual bowls, sprinkle with cheese. From Cooking Light Magazine.

Leeway: Add 3 chicken boullion cubes, or use defatted chicken broth instead of water. I have substituted kidney beans for white beans, and pearl barley for orzo for a different variation that we seem to like better. If you use barley, add it when you put in the water, it requires more cooking time. You may need to simmer longer. This soup always tastes great on a cold day after a long run. It can last up to a week in an airtight container, or be frozen for three months. Soup makes an excellent meal in itself, especially when you want a light dinner.

Hot and Sour Soup

- 1/4 pound pork loin, shredded pork
- 3 teaspoons cornstarch
- 1 teaspoon sherry
- 2 dried black mushrooms
- 1/4 cup dried wood ears
- 1/4 cup dried lily buds

- 1/2 cup bamboo shoots, shredded
- 1 tablespoon light soy sauce
- 6 cups chicken broth
- 2-4 tablespoons rice wine vinegar, (to taste)
- 1/4 teaspoon white pepper, (to taste)
- 2 tablespoons dark soy sauce
- 1/2 cup low-fat firm tofu, cut in 1" cubes
- 1/4 egg substitute, (two egg whites = 1/4 cup egg substitute)
- Tabasco sauce to taste (optional)
- 1 teaspoon sesame oil
- 2 teaspoons chopped scallions

1. Mix the pork with sherry and 1 teaspoon of the corn starch. Cover and soak wood ears, mushrooms, and tiger lilies with boiling water for 15 minutes. Slice the mushrooms and wood ears into strips.
2. Mix the remaining cornstarch with the 1/2 cup of cold water and set aside. In a large soup pot, bring chicken broth and soy sauce to a simmer. Add the pork, mushrooms, wood ears, tiger lilies,

bamboo shoots, and light soy sauce and cook for about 5 minutes.

3. Add vinegar, white pepper, and tofu. As soon as the soup begins to boil, stir in the well-stirred cornstarch mixture until the soup thickens.
4. Add the tabasco sauce, if using. Mix in the beaten eggs, stirring constantly.
5. Taste the soup and adjust the vinegar, tabasco, soy sauce and white pepper combination to your taste. Add the sesame oil and scallions.

Minted Noodle Soup

Although a hot dish it is nice for summer days as the mint is refreshing. This does make a large pot - it worked out well for a family of four to have over two lunches, storing it in the fridge overnight.

Ingredients:

250g/6oz (half a standard pack) of spaghetti
approx 9 or 10 cups of water/about 4 pints
4 cloves of garlic, very finely chopped

1 large onion, chopped
5 sticks of celery, diced quite small
a good handful of fresh mint (or 3 teaspoons of dried)
seasalt to taste

Break the spaghetti up into small pieces (about 6 cm./2 inches long) into a large saucepan. Cover with the water and turn up the heat to full. Bring to the boil while you prepare and add the other ingredients with the exception of the mint. Once boiling turn down to simmer for about 15 minutes until everything is cooked. Add the mint and cook for a further 2 or 3 minutes and serve sprinkled with generous amounts of chopped fresh parsley (optional but it was really good!).

Lentil, Garlic and Rosemary Soup

A cleansing and fortifying soup for the winter, combining the immune boosting properties of garlic and rosemary with the nutritious content of the lentils and carrots (zinc, iron and carotenes) . This recipe makes a large pot of soup - will feed 6 people at 2 sittings or you could freeze half for later.

Ingredients:

500g/12oz/2 cups of red lentils
approx 9 or 10 cups of water
1 whole bulb of garlic, peeled and finely chopped
either a large sprig of fresh rosemary, finely chopped or two teaspoons of dried
4 medium carrots diced quite small
seasalt to taste

Place the lentils in a large saucepan and cover with the water - bring to the boil while preparing the other ingredients. Reduce to a simmer and add the garlic, rosemary and carrots. Cook for a further 20 minutes until everything is ready and add the salt.

Yellow Split Pea Soup

A simple warming, filling soup for winter days.

Ingredients:

2 cups of dried yellow split peas, washed and soaked in water overnight
5 or 6 cups of water
1 large onion, chopped
3 carrots, chopped small
1 small turnip (or neep!) cut into small cubes
Salt and pepper to taste

Place the split peas in a large saucepan and cover well with water. Bring to the boil, reduce to a simmer and cook for about an hour or until the peas are soft and starting to go a bit mushy. Add the onion, carrots and neep and cook for a further 20 minutes until everything is tender. Season and enjoy with wholemeal bread...

Vegetable and Barley Soup

Chunky meal of a soup

Ingredients:

5 or 6 large potatoes, peeled and cubed

2 leeks cut into round slices

3 carrots, roughly chopped

5 celery sticks, cut onto chunks

1 cup of dried pearl barley

2 heads of swiss chard (or similar green leaf such as leaf beet or a couple of handfuls of spinach), chopped

enough water to cover

Salt and pepper to taste

Very simple to prepare this one! Place all your vegetables except the chard in a large pan with the barley. Cover well with water, boil and simmer until everything is cooked. Add the chard and salt and cook for another 5 minutes.

Leek, Potato and Pea Soup

A chunky, filling winter soup. These quantities make a large pan of soup - they can easily be reduced by half if desired.

Ingredients:

2 tablespoons of sunflower oil

2 medium leeks, sliced widthways into thin round slices

2 or 3 cloves of garlic (crushed, optional)

6-8 large potatoes, cut into chunks (about 2 or 3 cm.)

2 tablespoons of white flour

1 cup of frozen peas

5 or 6 cups of water

Salt and pepper to taste

Cook the leeks and garlic, if using, in the sunflower oil for a few minutes then stir in the flour. Add one cup of water and stir well to blend. Add the potatoes and the rest of the water (you may need to adjust the quantity slightly - make sure all the vegetables are well covered). Bring to the boil, stirring occasionally to prevent sticking, and then turn down to simmer until the potatoes are just about cooked. Finally add the peas and cook for a further few minutes until tender. Season to taste.

Sweet Potato and Tomato soup

This soup is rich in vitamins A, C and E and also quite high in iron. If topped with pasta or rice it is also a good source of protein and carbohydrate.

Ingredients:

A little olive oil

1 onion
2 or 3 cloves of garlic (optional)
2 or 3 large sweet potatoes (the pink fleshed variety), peeled and roughly chopped
1 tin of tomatoes (approx. 400g/12oz)
Salt and pepper to taste

Fry the onion and garlic in the olive oil for a few moments. Add the sweet potatoes and tomatoes and simmer until the potatoes are just tender. Add the salt and pepper and liquidise until smooth. My family loves this soup with some whole-wheat pasta and fresh herbs on top, but you could also use rice or just have it on it's own with some bread.

Peppery Pumpkin Soup

This is a recipe that we almost always have at Halloween - we scrape out as much pumpkin flesh as we can before making the lantern!

Ingredients:

2 onions, chopped
A little vegetable oil or vegan margarine
The flesh of 1 pumpkin
3 to 4 cups of soya milk
seasalt to taste
freshly ground black or mixed pepper to taste (we like lots)

Fry the onion in the oil or margarine for a few minutes until soft then add the pumpkin and salt and cook for a further few minutes. Add the soya milk and bring to the boil - reduce heat and simmer gently until the pumpkin flesh is soft. Place the soup in a liquidiser and blend until smooth and frothy. Add the pepper - we find it a good idea to let everyone add their own.

Basic 'tattie' (potato) soup

This is so basic it hardly constitutes a 'recipe'! It is very simple and fairly bland - children love it.

Ingredients:

Onions (1 or 2), chopped
A little sunflower oil
Potatoes (2 lb/1 kilo/6 cups), cut into chunks
Carrots (about 1 lb/450g/3 cups), cut into chunks
Turnip (8oz/200g/1 cup) - optional
Kale (or dark green cabbage) chopped
Garlic to taste, chopped
Herbs of your choice, fresh or dried (we tend to use sage)
Seasalt to taste

Fry the onion in the sunflower oil for a few minutes to seal the flavour then place all the other ingredients except the kale or cabbage in a pan and cover with water. Bring to the boil and simmer until the vegetables are cooked (15 - 20 minutes). Add the green vegetables 5 - 10 minutes before cooking is finished to prevent them being over-cooked. Mash well.

The quantities given make quite a large pan of soup - we eat half one day and store the rest in the fridge until the next day - you may wish to change the quantities to suit your needs.

Cream of Nettle soup

Don't worry - they don't sting when cooked! Nettles are very nutrient rich and of course - free! Don't gather them beside a busy road where they will have been contaminated by traffic fumes - we pick them in our garden. If you keep cutting them from springtime you get a regular supply of fresh leaves. Though we stop using them into summer as they seem to get rather insecty!

Ingredients:

2 tablespoons of vegan margarine or oil
2 tablespoons of white flour
1 onion, roughly chopped
2 cloves garlic, chopped
Freshly picked and washed young nettles (several good handfuls - picked with gloves and caution!)
2 cups soya milk
1 cup water or stock
salt and pepper to taste

Fry the onion and garlic in the oil or marg. for a few minutes then stir in the nettles (no need to chop or remove stalks) until they soften. Stir in the flour and gradually add the soya milk and water or stock, stirring all the time. Add seasonings and liquidise. Delicious...

Tomato and Avocado soup - a cold dish.

This soup also contains vitamins A, C and E and is highly nutritious, as it is completely raw.

1 tin of tomatoes
A good handful of fresh lovage
Parsley to taste
1 stick of celery
small amount of seasalt
1 cup of apple juice

6-Just before serving, stir a few ice cubes into the soup and then spoon into serving bowls. Serve with the garnishes.

Sauces and Dips

Hummus or Houmous

This is a traditional Greek dish - can be used as a dip or a spread for sandwiches (fantastic combined with avocado and the naise below, in a sandwich). For a raw dish you can use sprouted chick peas in place of cooked ones.

Ingredients:

1 can (approx. 400g) of cooked chick peas (or you can soak overnight and cook 1 cup of dried chick peas)
2 Tablespoons of olive oil
1 - 2 cloves of fresh garlic
2 Tablespoons of tahini (sesame paste)
the juice of 1 lemon
a little water to blend
salt and pepper (optional)

Place all ingredients in a food processor and blend until fairly smooth - you may need to keep adding water bit by bit until you get the consistency you want.

Butterbean, Sage and Lemon Pate

Stolen from an idea by Catriona!

Ingredients:

1 tin (approx. 400g) of butterbeans (large limas)
2 teaspoons of olive oil
15 fresh sage leaves (or a teaspoon of dried)
the juice of 1 lemon
grated rind of half a lemon

Place all ingredients in a food processor and blend until smooth.

Guacamole

We have added a few bits and pieces to traditional guacamole - fantastic as a dip, sandwich filling or served on portabello mushrooms garnished with cucumber like here.

Ingredients:

2 ripe avocados
3 large tomatoes
1 - 2 cloves of fresh garlic
quarter teaspoon of chilli powder (or more if you like it hot!!)
the juice of 1 lemon
1 finely diced red pepper
1 finely diced green pepper
salt and pepper (optional)

Place the avocados, tomatoes, garlic, chilli, lemon juice and seasonings in a food processor and blend until fairly smooth - stir in the peppers and there you go.

Soya 'Mayo'**Ingredients:**

3 cups of soya milk
1 cup of sunflower oil
a little cider vinegar
optional extras - garlic, herbs, chilli, curry powder

Place the soya milk in a liquidiser and start machine - add any of the optional extras ie. Garlic for garlic naise. Slowly add the oil while blending. Once it is all well blended add the vinegar (this will thicken the mixture instantly) and switch off the machine. This makes one very large jar, which will keep in the fridge for a few days - reduce the amounts if you wish.

Basic Tomato Sauce for pasta

Ingredients:

A little olive oil

1 onion, finely chopped

2 - 3 cloves of garlic, crushed

1 can (approx. 400g) tomatoes, chopped

2 Tablespoons of tomato puree

1 or 2 Tablespoons of oregano or mixed herbs

1 cup of veg. stock or water (or even wine, if you like, for a richer sauce)

Fry the onion and garlic in the oil for a few minutes until softened. Add the tomatoes, puree, stock or water and herbs and simmer gently for about 15 minutes.

That is the basic sauce - you can add anything you like to it. Any vegetables chopped and added with the tomatoes etc. Soya mince for a more traditional bolognese type sauce. Beans, sweetcorn, peas.

A sweet and sour sauce is easy to make also - add a can of pineapple pieces in pineapple juice and leave out the herbs. A little vinegar is added too. This is great with beans and vegan sausages chopped up.

Quick, no-cook, stir in Sauce for Pasta

Ingredients:

6 fresh tomatoes and half a cup of water OR 1 tin of tomatoes

a good handful of basil (both stalks and leaves)

a handful of parsley

2 sticks of celery, cut into chunks

half a teaspoon of seasalt

dash of soy sauce (optional)

2 teaspoons cold pressed olive oil (leave this out if you want a fat free sauce)

Whizz it all up in a liquidiser or blender until fairly smooth and stir into your favourite pasta - very nice with wholewheat shells and a big salad.

Rich and Chunky Mushroom Gravy

Ingredients:

2 tablespoons sunflower oil

1 onion, finely chopped

8-10 large portabello or other flat mushrooms, cut into 3 cm cubes (roughly)

2 cups of water

seasalt to taste

1 cup of vegan gravy mix (original Bisto in the UK is vegan - use 3 teaspoons powder for 1 cup of water)

Fry the onion in the sunflower oil for a few minutes and then add the cubed mushrooms. Cook until the mushrooms soften (five minutes approx) then add the water and gravy mix - stir until thickened. This is great served on spaghetti, over rice or baked potatoes.

Hot Chocolate Sauce for Ice Cream

Perfect placed in a bowl with a scoop of vanilla ice cream (Swedish Glace or Toffuti are great)

Ingredients:

1 cup (approx) of soya milk
about 50g of plain chocolate
2 teaspoons of corn flour
a teaspoon of sugar

Slowly warm the soya milk in a pan. Add the chocolate and keep mixing until melted together. Remove from heat. In a cup or small bowl blend the cornflour with a little soya milk and the sugar. Slowly pour this into the chocolate mixture, stirring all the time until thick.

a quarter cucumber, diced
1 green pepper cut into small strips
2 tablespoons of olive oil

Spread the sliced tomatoes over the top, dot with the marg. and sprinkle on the sesame seeds. Bake for about an hour or until the potatoes are soft at 190C/380F.

Bradies

A traditional pastry from the North East of Scotland - they're a bit like flat meat and potato pies - we have replaced the original beef mince with frozen vege-mince! Nice with chips (french fries) and beans. This recipe makes 4 large bradies.

Ingredients:

Approx 400g/15oz of frozen vegan puff pastry, defrosted

a little sunflower oil

1 large onion, chopped

1 large potato, cut into small cubes

about 1 and a half cups of frozen vege-mince (dried soya mince would do fine if re-hydrated first in water or stock)

1 tablespoon of soy sauce

Prepare the pastry by rolling out (to about 5mm thick) and cutting into 4 rectangles. In a pan fry the onion, potato and mince together for a few minutes and then add the soy sauce and mix well. Place the filling on one half of the pastry rectangles and then fold over and seal the edges by folding them over all the way round with a little water. Place on a baking tray and bake at 200C/400F for 20-30 minutes or until pastry is cooked.

Mince and dumplings

A traditional Scottish meal - often served with skirlie, greens and mashed potatoes.

Ingredients for mince:

a little sunflower oil

1 onion, chopped

2 or 3 carrots, diced

Approx 2 cups of frozen vegemince or re-hydrated dried soya mince

About 1 cup of water or stock

Dash of soy sauce

1 fresh bayleaf or half a teaspoon of dried bayleaf

salt and pepper to taste

For the dumplings:

100g/4oz self raising flour

50g./2oz hard vegan margarine or vegetable suet, broken into small pieces

1 teaspoon of dried herbs (optional)

a little salt

water to mix to a dough (about a quarter cup)

Fry the onion and carrot in the oil for a few minutes. Add the mince, water, seasoning and soy sauce. Make small tears in the bay leaf and place in the pan with the other ingredients (alternatively add dried bay). Bring to the boil and turn down to simmer. For the dumplings: rub the fat into the flour, add herbs if using and salt. Gradually add water and mix until you have a workable dough. Form into about 10 small balls and place in the simmering pan of mince for about 20 minutes until cooked. If the pan of mince is quite shallow you may need to turn the dumplings halfway through cooking. If you used a fresh bayleaf you should remove it before serving (though I have sometimes forgotten and had no complaints!!).

Spicy, Fruity Pasty

These quantities make 4 large or 8 mini pasties - lovely as a simple hot meal with oven chips and salad or cold with Plamil mayo later!

Ingredients:

Approx 400g/15oz of frozen vegan puff pastry, defrosted (ready rolled is extra easy!!)

Soya milk for glazing and sealing (a few tablespoons)

a little sunflower oil

2 garlic cloves, crushed

1 onion, finely chopped

1 teaspoon of curry powder

2 medium sized potatoes, cubed quite small

3 medium carrots, cubed the same

about 10 dried apricots, chopped

1 apple, peeled then finely chopped (this is a good recipe for using up slightly old apples)

1/4 cup of white wine or stock

seasalt to taste

Prepare the pastry by rolling out (to about 5mm thick) if needed and cutting into 4 or 8 just off square rectangles. In a frying pan fry the onion and garlic in the oil then add the curry powder. Add the fruit and vegetables and pour over the wine or stock. Cook for a few minutes until everything is well combined and starting to soften, then divide between the pastry squares, placing the filling in the middle. Seal up the edges using some soy milk for stickiness (like making a little parcel and pinching the edges together). Glaze with a little soya milk and bake at 200C/400F for 20-30 minutes or until pastry is cooked.

Stuffed Acorn Squash

This would work equally well with other squashes such as butternut or pumpkins.

Ingredients:

2 medium acorn squashes
2 tablespoons of olive oil
a little sunflower oil
2 garlic cloves, crushed
1 leek, finely chopped
a thumb sized piece of ginger, finely chopped or grated
a handful of flaked almonds
1 glass of white wine (optional)
(roughly) a cup of rice
seasalt to taste
2 or 3 cups of water for cooking as needed

Cut the squashes in half, remove the seeds and rub them with the olive oil. Place on a baking tray and bake in the oven at 180C/360F for about half an hour. Meanwhile lightly fry the garlic, leek and ginger in the sunflower oil for a few minutes and then add the wine, almonds and salt. Add the rice with enough water to cover well and bring to the boil. Turn down and simmer until the rice is cooked, stirring occasionally and adding more water if needed. Once cooked pile the rice mixture onto the squash halves and bake for a further 20-30 minutes or until the squashes are tender. Nice with gravy and roast potatoes.

Sweet Potatoes in a Coconut and Peanut Sauce**Ingredients:**

1 onion, finely chopped
2 cloves of garlic, crushed
a little sunflower oil
1 teaspoon of curry powder
2 tablespoons of peanut butter
1 tin of coconut milk
5 or 6 medium sized sweet potatoes, cut into bite size chunks
seasalt to taste

Fry the onion and garlic in the oil for a few minutes. Add the curry spices and stir well. Add the peanut butter, stirring over a medium heat until it begins to melt and then pour in your coconut milk and stir until well blended. Put the sweet potatoes and salt in the pan and bring to the boil and then turn down to simmer until they are softened (10 minutes +). Nice with rice and salad.

Stuffed Marrow Rings**Ingredients:**

1 large or 2 medium marrows
a couple of tablespoons of olive oil for coating
1 large onion
100g/4 oz/1 cup almonds
3 slices of bread
a good handful of fresh basil (or two teaspoons of dried herbs of your choice)

Preheat oven to 190C/380F. Cut the marrow into approx. inch/2cm rings. Cut out the seedy middles (off to the compost!) and peel if necessary (fresh from the garden ones don't need but older ones may be tougher) and rub with the olive oil. Lay on a baking tray. Combine the onion, nuts, herbs and bread in a food processor until it reaches a nice pate like consistency. Spoon this mixture into the rings and bake for about half an hour or until the marrow is beginning to go golden and soft.

Quiche (or tart)

Ingredients:

pastry:

200g/7 oz/1 and a half cups plain flour (either white or wholemeal)

100g/3 and a half oz/ half a cup vegan margarine

5 or 6 tablespoons of cold water

filling:

1 block of tofu (silken or firm) - roughly about 200g/7oz

half a teaspoon of turmeric

1 onion, roughly chopped

2 cloves of garlic

3 tablespoons of soya milk

a little seasalt

extra ingredients of your choice:

chopped tomatoes

sliced mushrooms

sliced onions

cheatin' ham (soy based meat analogue)

tinned sweetcorn

diced peppers

Preheat oven to 190C/380F. In a large mixing bowl rub the margarine into the flour to a breadcrumb texture. Gradually add the water and mix to a dough. On a floured board roll this out to fit your flat pie or quiche dish. Grease dish and line with the pastry.

In a food processor combine the tofu, turmeric, soya milk, onion, garlic and salt until fairly smooth. Into this you stir your chosen ingredients - mushroom and tomato is lovely - so is plain sweetcorn. Even just a plain quiche topped with sliced tomatoes is a very nice meal when accompanied with new potatoes and salad. For a sage and onion tart add a handful of fresh sage to the tofu mixture before processing.

Pour the filling mixture into the pastry case and bake in the oven for about 45 minutes or until firm in the middle (this will vary from oven to oven so check from about half an hour).

Singapore Vegan Noodles

Ingredients:

Dried rice noodles (200g pack for a family of 4)

2 tablespoons of sunflower oil

3 cloves of garlic, crushed

1 onion cut into inch/2cm long thin strips

1 teaspoon of chilli powder
1 red pepper cut into same strips
1 yellow pepper cut in the same way
1 courgette/zucchini cut into strips
smoked tofu, cut into similar sized pieces
2 tablespoons of soy sauce
2 tablespoons of sesame oil

Cook the rice noodles according to the instructions on the packet - often this is just pouring boiling water over them and leaving them for a while. Cook the onions and garlic in the sunflower oil for a few minutes and then add the chilli and stir in well. Add your vegetables and soy sauce and cook for a few moments until slightly softened and then add the tofu and stir fry for another 10 minutes or so before adding the rice noodles and combining well (you may want to cut them up if they are very long). At the last minute sprinkle the sesame oil over the dish and serve at once. This goes very well with a fresh salad of Chinese cabbage and herbs.

Sweet Butternut Casserole

Ingredients:

600g/21 oz. firm tofu
1 clove of garlic, crushed
quarter cup of barbeque sauce (or favourite marinade)
2 tablespoons of Indonesian sweet soy sauce

Cut the tofu into twelve pieces about the thickness and size of a burger. Place the tofu, garlic and sauces in a dish and marinate over night or for two days. Either fry, barbecue or bake (at 200C/400F) until browned. Serve in a bun with fried onions, egg-free mayonnaise, salad and sauces or mustard.

Lynn's Cornish Pasty

I should point out that if it was a vegan version of a 'traditional' Cornish pasty it would not have carrot in it - but I think it's tastier with it in there.

Ingredients:

To make 4 medium to large pasties:

for the pastry:

10 oz/275g/2 cups plain flour (I use a mixture of 3 oz white & 7 oz wholewheat/wholemeal)

5 oz/130g/ 3/4 cup hard margarine (I grate it - it's easier to rub in!)

pinch salt

water to mix

for the filling:

1 tablespoon oil or margarine

1 onion, roughly chopped

1 small Swede chopped (about 1/2inch dice)

4 medium/large carrots chopped as above

1 medium/large potato chopped as above

1 tsp yeast extract

black pepper to taste

Pastry: Mix flours and salt together. Rub in grated marg until the mixture looks like fine breadcrumbs. Add cold water a tablespoon at a time until the mixture holds together and a firm dough is formed. Knead lightly. Put in fridge

Filling: Melt the margarine or heat the oil in a large saucepan. Add the vegetables and stir well. Put lid on saucepan and cook, on a low heat for about 20 minutes, stirring occasionally until vegetables are nearly cooked. Stir in yeast extract and add black pepper, and allow the mixture to cool. Remove pastry from fridge and cut into four equal pieces. Roll out each piece roughly into a circle of about 7 inch (this is very roughly - I never actually measure it!). Place 1/4 of the veg mix along the centre of each circle and wet edges, bring them together above the veg mix and seal and 'crimp'. Brush with soya milk and cook (in a preheated oven!) at 180C/375F on the middle shelf for about 40-45 minutes.

These are good hot or cold, and I sometimes add herbs to the mixture (fresh or dried whatever I have to hand) just for a change! Hope you enjoy them as much as my children have over the years.

Pizza

This pizza is so tasty that you will not miss the cheese!

Ingredients:

for the base:

500g./1 lb./3 cups plain flour, white or wholemeal

1 packet of easy blend dried yeast

200 ml./1 cup of warm water but keep adding until you get a good dough

topping:

1 tin chopped tomatoes (approx. 400g/14oz.)
2 tablespoons dried mixed herbs
2 tablespoons olive or sunflower oil
salt and pepper to taste
1 small tin of mushrooms or/and sweetcorn (optional)
sesame seeds for sprinkling on top

Mix the flour with the yeast and add the water gradually. Mix well (with your hands is best) and then knead for a couple of minutes until the dough is fairly smooth. Place on a large greased baking tray and flatten into desired shape (ie. - circle). Leave in a warm place while you prepare the topping: Mix together the tomatoes, herbs, oil and seasoning in a bowl and then spread over the pizza base. If using the mushrooms/sweetcorn - coat them in a little olive oil and arrange on the top of the pizza. Sprinkle with sesame seeds and bake at 200 C/400 F for 15 to 20 minutes until ready.

Variations - obviously you can add whatever toppings you like to the basic tomato mixture - olives, vegan 'cheeses', pineapple chunks, vegan meat substitutes etc. You can also vary the herbs used, add garlic and onion or add herbs or seeds to the base. If you want a softer base you can leave the dough to rise for half an hour before adding the toppings but we find it great without doing that.

Chick Pea Curry

Ingredients:

1 - 2 Tablespoons of olive oil
1 onion, chopped
3 cloves of garlic, finely chopped or crushed
1 apple, peeled and finely chopped
1 green pepper, finely chopped
2 - 3 teaspoons of curry powder
1-2 tins of cooked chick peas (or soak dried ones overnight and cook)
1 can of tomatoes
handful of raisins (optional)
2 tablespoons of desiccated coconut (optional)
some frozen peas
salt

Fry the onion, garlic and apple in the olive oil for a few minutes. Add the curry powder and stir for a minute or two. Add the tomatoes (chop them if needed) and green pepper. If you like really sweet tasting curry, then add the raisins and coconut. Cook for about 15 minutes at simmering level and then add your chick peas and cook for a further 10 minutes. Shortly before the end of cooking time put some frozen peas in, as these will go mushy if overcooked. Add salt to taste.

We like this best with white basmati rice, and lots of little toppings.

Ideas for toppings are chopped fresh tomato, cucumber, sliced banana (yes this does work!), sunflower seeds, avocado, in fact anything you fancy! My kids love these all put in small separate bowls so they can help themselves.

Smokey Seafood Risotto

Don't worry the seafood here is Arame, a sea vegetable!

Ingredients:

A little sunflower oil

1 onion

2 or 3 cloves of garlic

1 block of smoked tofu

a good handful of dried arame

500g/18 oz/2 cups basmati rice (this makes a large potful to feed a family - reduce the amount of rice and water accordingly if you want)

a cupful of frozen peas

Seasalt to taste

Water to cover

Fry the onion and garlic in the oil for a few minutes. Chop the tofu into small cuboids and add to the onion and garlic. Add the rice and mix well then add enough water to well cover the rice.

Add the arame (you may need to add more water as seaweeds vary in how absorbent they are) and the seasalt. Bring to the boil then turn down to simmer. A few minutes before the end of cooking time add the peas. Nice served with a green salad.

Mediterranean Roast Vegetables

Ingredients:

2 yellow peppers

2 red peppers

3 or 4 parsnips

3 or 4 carrots

half a cup of sunflower oil

3 cloves of garlic

a good handful of basil

Seasalt

Cut the peppers into chunks and scrape and do the same with the carrots and parsnips. Crush the garlic and tear the basil. Mix into the oil. Thoroughly coat the vegetables in the oil mixture and place on a roasting tray. Sprinkle with seasalt and roast for about half to three quarters of an hour at 190C/380F. Lovely as an accompaniment to main dishes such as nut roast, baked potatoes and casseroles.

Basic Baked Potatoes

Ingredients:

Large baking potatoes

Olive oil

Seasalt

Wash the potatoes well and then prick all over with a fork. Coat them with the oil and salt - messy but fun! Bake in the oven for about 1 hour and 15 minutes at 180C/360F. Alternatively you can cook these in a microwave in minutes (follow manufacturers guidelines for timing). Nice served with a green salad and your choice of topping or filling.

Suggested toppings:

Baked beans, hummus, casserole, vegan cheese mixed with soy mayo and chopped spring onions, curry, sweetcorn, stir fried veg - let your imagination run wild!! Don't miss the salads section for ideas too.

Garlic bread

A good accompaniment for many of the above meals - shop bought ones are almost always made with butter so we make our own vegan version.

Ingredients:

2 or 3 half baked baguettes
1 cup of vegan margarine
3 or 4 cloves of garlic, crushed
2 tablespoons of chopped parsley

Slice the baguettes widthwise (about 3cm. thick works well) carefully leaving the bottom intact (so they are still in their loaf shape). Mash the margarine with the garlic and parsley. Spread both sides of each slice with the margarine mixture then wrap the baguettes in tin foil and bake in the oven at 180c/360F for about 15 minutes.

A garlic free alternative would be to use different fresh, chopped herbs in the margarine instead of garlic for a herby bread.

Red Pepper Risotto

The character of this delicious risotto depends on the type of rice you use. With arborio rice, the risotto should be moist and creamy. If you use brown rice, reduce the amount of liquid for a drier dish with a nutty flavour.

Ingredients:

Serves 6

3 large red peppers
30 ml/2 tbsp olive oil
3 large garlic cloves, thinly sliced
1 1/2 x 400 g/14 oz cans chopped tomatoes
2 bay leaves
1.2-1.5 litres/2-2 1/2 pints/5-6 1/4 cups vegetable stock
450 g/1 lb/2 1/2 cups arborio rice or brown rice
6 fresh basil leaves, snipped
Salt and freshly ground black pepper

1-Preheat the grill. Put the peppers in a grill pan and grill until the skins are blackened and blistered all over. Put the peppers in a bowl, cover with several layers of damp kitchen paper and leave for 10 minutes. Peel off the skins, then slice the peppers, discarding the cores and seeds.

2-Heat the oil in a wide, shallow pan. Add the garlic and tomatoes and cook over a gentle heat for 5 minutes, then add the pepper slices and bay leaves. Stir well and cook for 15 minutes more, still over a gentle heat.

3-Pour the stock into a large, heavy-based saucepan and heat it to simmering point. Stir the rice into the vegetable mixture and cook for about 2 minutes, then add two or three ladlefuls of the hot stock. Cook, stirring occasionally, until all the stock has been absorbed into the rice.

4-Continue to add stock in this 4way, making sure each addition has been absorbed before pouring in the next. When the rice is tender, season with salt and pepper. Remove the pan from the heat, cover and leave to stand for 10 minutes before stirring in the basil and serving.

2-To make the risotto, put the saffron in a small bowl with 15 ml/1 tbsp boiling water and leave to stand while the saffron is infused. Melt the butter in a heavy- based frying saucepan and gently fry the onion for 5 minutes, until softened and golden.

3-Stir in the rice and cook for about 2 minutes until it becomes translucent. Add the wine and saffron mixture and cook for several minutes until all the wine is absorbed.

4-Add 600 ml/ 1 pint/2 1/2 cups of the stock to the pan and simmer gently until the stock is absorbed, stirring frequently.

5-Gradually add more stock, a ladleful at a time, until the rice is tender. (The rice might be tender and creamy before you've added all the stock, so add it slowly towards the end of the cooking time.)

6-Season the risotto with salt and pepper and transfer to a serving dish. Scatter lavishly with shavings of Parmesan cheese and the garlic and parsley mixture.

Fonduta with Steamed Vegetables

Fonduta is a creamy cheese sauce from Italy. Traditionally it is garnished with slices of white truffles and eaten with toasted bread rounds.

Ingredients:

Serves 4

assorted vegetables, such as fennel, broccoli, carrots, cauliflower and courgettes

115 g/4 oz/8 tbsp butter

12-16 rounds of Italian or French baguette

a few slivers of white truffle (optional)

salt and freshly ground black pepper

1-About 6 hours before you want to serve the fonduta, cut the fontina into chunks and place in a bowl. Sprinkle with the flour. Pour in enough milk to barely cover the cheese and set aside in a cool place. The cheese should be at room temperature before being cooked.

2-Just before preparing the fonduta, steam the vegetables until tender. Cut into pieces. Place on a serving platter, dot with butter and keep warm.

3-Butter the bread and toast lightly in the oven or under the grill.

4-For the fonduta, melt the butter in a bowl set over a pan of simmering water, or in a double boiler. Strain the fontina and add it, with 45-60 ml/3-4 tbsp of its soaking milk. Cook, stirring, until the cheese melts. When it is hot, and has formed a homogeneous mass, add the Parmesan and stir until melted. Season with nutmeg, salt and pepper.

5-Remove from the heat and immediately beat in the egg yolks, which have previously been passed through a sieve. Spoon into warmed individual serving bowls, garnish with white truffle, if using, and serve with the vegetables and toasted bread.

Amarett Biscuits

INGREDIENTS

makes about 20

2 egg whites
1/2cup/100g/4oz fruit sugar
2/3 cup/100g/4oz ground almonds
1 tsp/5ml kirsch (optional)
few drops vanilla essence
almond slivers for decorating

METHOD

1-Pre-heat the oven to 350oF/180oC/Gas 4. Whisk the egg whites until they form soft peaks. Gradually add the sugar, whisking continuously until the mixture is thick and lustrous. Stir in the ground almonds, kirsch and vanilla.

2-Line baking sheets with sheets of rice paper. Take a spoonful of mixture about the size of a plum and roll it into a ball in the palms of your hands. With a sticky mixture, you will find it easier if your hands are wet. Flatten the balls and arrange them on the baking trays with plenty of space for them to expand during cooking.

3-Decorate each biscuit with a sliver of almond and bake for 20-30 minutes. Allow to cool slightly, then carefully remove biscuits with their rice paper bases (which are edible) and cool them completely on a wire rack. Store in an airtight tin.

ApricotTart

INGREDIENTS

serves 4-6

2 1/2 cups/600ml/1 pt yoghurt
short crust pastry to line a pan approximately 19cm/7 1/2in
1 1/2 cups/400g/14oz canned apricots

METHOD

1-Drain the yoghurt for 3 hours. Bake the pastry case for 10 minutes. Drain the fruit (save the juice for use in a fruit salad) and lay the apricot halves on the pastry. When the yoghurt has drained, mix it together with the whipped cream and remaining ingredients except the egg white, beating everything to a smooth mixture.

2-Whisk the egg white until it is stiff and fold it into the other mixture. Spoon it over the apricots and bake at 325°F/170°C/Gas 3 for 50 minutes.

VARIATION

Use curd cheese or quark (1 1/3 cups/225g/ 8oz) instead of the yoghurt if preferred.

BREADS AND PASTRIES**Danish Apple Pie****INGREDIENTS**

Serves 4-6

Short crust pastry to line a pan approximately 19cm/7 1/2in

5 medium/700g/1 1/2 lb cooking apples, peeled, cored and sliced

METHOD

1-Bake the pastry for 10 minutes at 350°F/ 180°C/Gas 4. Make a thick apple sauce using the apples, water, sugar, butter and half of the cinnamon. There shouldn't be any excess liquid when the apples are cooked, but if there is, cook for a few minutes more without a lid, stirring to prevent the apples sticking.

2-Let the apple sauce cool a little before turning into the pie shell. Spoon the soured cream on-er the apples. Mix the rest of the cinnamon with the sugar and sprinkle this over the soured cream. Bake at 400°F/ 200°C/Gas 6 for 30 minutes.

3-This is best served warm, rather than straight from the oven, but it is also good cold.

CREPE AND PASTA DISHES

Stuffed Cheese Pancakes

INGREDIENTS

Serves 3-4

3/8 cup/40g/1 1/2 oz plain untreated flour
3/8 cup/40g/1 1/2 oz wholewheat flour
pinch salt
1 egg
2/3 cup/150ml/5fl oz milk
1 tbsp/15ml melted butter

CHEESE AND HERB FILLING

2 cups/450g/1 lb curd or cottage cheese
2 tbsp/30ml cream
1 fat clove garlic, crushed
2 tbsp/30ml finely chopped fresh herbs
1 tbsp/15ml chopped spring onion

1-To make the pancake batter, sift the flour and salt into a bowl. Make a well in the middle of it and add the egg. Gradually beat in the milk. When half of the milk has been added, beat in the melted butter. Continue beating in the milk until you have a thin batter. Allow the batter to stand for half an hour.

2-Meanwhile, prepare the filling. Combine the curd cheese with the rest of the ingredients and mix well.

3-To make the pancakes, oil a heavy- bottomed frying pan 7in/18cm in diameter. Place it on the flame and when it is very hot, add 2 tbsp/30ml of the batter. Tilt the pan so that the batter covers the base. Cook until the pancake is beginning to brown on the underside and then turn over and cook the top. You may have to throw the first pancake away, as it will absorb the excess oil in the pan.

4-Continue making pancakes, keeping them warm, until all the batter is used up. Divide the filling between them, rolling the pancakes around it into a cigar shape. Arrange the stuffed pancakes in an ovenproof dish and heat in a moderate oven for about 1 1/2 minutes.

Tagliatelle with Sweet Pepper Sauce**INGREDIENTS**

Serves 4

12oz/350g spinach tagliatelle noodles

2 tsp/10 ml oil

1½ cups/400g/15oz can tomatoes

fresh basil leaves,

snipped salt and freshly ground black pepper

1-Trim and de-seed the peppers and cut into narrow strips. You can make the sauce with green peppers alone if you wish, but the red and yellow varieties are sweeter and make the dish look more colourful. Blanch the peppers for a minute in boiling salted water, refresh in cold water, then drain.

2-Heat the olive oil in a pan, add the garlic and onions and cook gently, stirring, until soft. Add the tomatoes, tomato puree and basil. Break up the tomatoes with a wooden spoon and simmer for about 5 minutes. Season to taste and blend the sauce in a blender. Return to the pan over a very low heat and add the peppers.

3-Cook the pasta in a large pan with plenty of water to which you have added a little oil and the salt. The water should be at a full rolling boil. The pasta will be ready in about 9 minutes. Drain and divide between individual warmed serving bowls.

4-Spoon the sauce over each helping of pasta and serve at once with Parmesan cheese.

Cakes and Puds

Fruit Strudel

Ingredients.

1 block of frozen puff pastry (about 500g), defrosted

100g/4oz/half a cup of sugar

a little soya milk for sealing and glazing

2 cups of fruit - red and black currants are great in the summer, apples go well in autumn

Preheat oven to 180C/360F. Roll the pastry into one wide rectangle and place the fruit and sugar in a line in the middle. Lift up the edges and crimp together using the soya milk. Seal up the ends

and glaze the top with soya milk. You can also sprinkle a couple of teaspoons of sugar over the top. Bake in the oven for 25-35 minutes or until the pastry is cooked. Great served with soya cream or Swedich Glace ice cream.

Vanilla Sponge with chocolate chips and pecans

I used a 8" square tin for this cake but any shape you like would be fine.

Ingredients.

300g/12oz/2 cups of self raising flour

1 teaspoon of bicarbonate of soda

100g/4oz/half a cup of sugar

1 cup/8 fl.oz/200ml of sunflower oil

1 cup of soya milk (or possibly a little more to get a good mixture)

2 teaspoons of natural vanilla extract

50g./2 oz./quarter cup chocolate chips (or more if you like!)

50g/2 oz/half a cup of pecan halves

Oil your cake tin and preheat oven to 180C/360F. Mix together your dry ingredients of flour, sugar and bicarbonate. Make a well in the middle and pour in the oil, soya milk and vanilla - mix well. Pour into cake tin and then sprinkle on the chocolate chips and arrange the pecans on top. Bake for about half an hour or until cooked in middle (insert a knife or skewer into the centre of cake and if cooked it will come out clean)

Pear and Apple Upside Down Cake

These quantities make a very large cake - we used a 10" deep round tin. Great for keeping in the fridge and having as a pudding with custard or soya cream.

Ingredients.

a large tin of pear halves in syrup (around 800g including syrup)

500g/16oz/2 and a half cups of self raising flour

1 teaspoon of bicarbonate of soda

200g/7oz/1 cup of sugar

1 cup/8 fl.oz/200ml of sunflower oil

2 and a half cups/20 fl.oz/500ml of apple juice

1 teaspoon of natural vanilla extract

a tablespoon of brown sugar for sprinkling

Oil your cake tin and preheat oven to 180C/360F. Arrange the pears, cut side down on the base of tin (in a star pattern was very pretty). Combine the dry ingredients (excluding the brown sugar) in a bowl then add the wet ingredients (including the syrup from the pears) and mix well. Pour over the pears and bake in the oven for about 45 minutes or until nearly cooked through. Remove from tin by placing an oven-proof plate over the tin and turning upside down so you have the pears on top. Sprinkle with the brown sugar and return to the oven for a further 10 minutes.

Apricot Flapjacks

Ingredients.

2 cups of oat flakes

2 tablespoons of golden syrup

1 tablespoon of vegan margarine

1 tablespoon of light brown sugar

about 10 dried apricots chopped up quite small

Melt the syrup, sugar and margarine together in a pan over a gentle heat. When thoroughly melted mix in the oats and apricots and press the mixture into an oiled cake tin. I find a 8 inch square tin does well. Bake in the oven for 10-20 minutes at 190C/380F or until just beginning to brown. Cut lines into the 'cake' while still warm. Cool and break into bars.

Little Sticky Lemon Cakes

Ingredients.

6oz/200g./1 and a half cups of self raising flour

4oz./125g./half cup caster sugar

1 teaspoon raising agent

the juice and rind of 1 lemon

half a cup of sunflower oil

1 cup of soya milk (water or rice milk can be used instead)

dash of vinegar

half a cup of white icing sugar and a little boiled water, still hot

paper cake cases (will make 12-20 depending on the size of case)

Mix the flour, sugar and raising agent together then add the oil, lemon juice, rind and soya milk and mix well. Add the vinegar and stir. Divide the mixture between the cake cases (a couple of dessert spoons of mixture in each one) and bake for 15-20 minutes at 200C/400F. To make the icing: sift the icing sugar and add a small amount of very hot water and stir well. Start with a teaspoon full and keep adding and stirring until you get a gooey, spreadable icing. Once the cakes have cooled spread a little icing on each one and leave to set.

Tofu Cheesecake.

This pudding is high in calcium and protein and depending on the variety you choose could also be a good source of vitamin C and potassium.

Ingredients.

200g/7oz/1 and 3 quarters cup of vegan digestive biscuits (graham crackers in the US) or bourbons for the chocolate variety

150g./5 oz/half a cup vegan margarine

1 block of tofu - about 400g/12 oz/1 and a quarter cups (silken is best for this recipe but other forms will do)

1 banana

1cup of orange juice

4 Tbspoons of sugar

4 Tbspoons of sunflower oil

For chocolate variety:2 Tbspoons of cocoa

For fruit variety: some fruit stewed with a little sugar

Crush the digestive biscuits and melt the margarine and then mix these two ingredients together. Press this mixture into a large flat dish. Combine the tofu, banana, orange juice, sugar, oil, and cocoa (for chocolate only) in a blender until smooth and pour onto the base. Bake in oven at 180 degrees for about half an hour. For the fruit variety, allow the cake to cool slightly then pour the stewed fruit with sugar over the top and chill. This can be topped with all raw fruit instead (kiwi, tangerine slices etc).

Wheat-free Apple Layer Cake

A low-fat, moist cake using soya and rice flours. Nice served as a pudding with soya yoghurt.

Ingredients.

6oz/200g./1 and a half cups of rice flour
2oz./50g./scant cup soya flour
4oz./125g./half cup caster sugar
1 teaspoon wheat free raising agent
2 large eating apples (peeled, cored and thinly sliced)
1 cup water
1/4 cup of apple juice
2 tablespoons of sunflower oil
a few drops of vanilla extract (optional)
dash of vinegar
brown granulated sugar for sprinkling on top

Mix the dry ingredients together then add the water, juice, oil, vanilla and mix well. Add the vinegar and stir. Pour half the cake batter into a greased square cake tin (9x9 inches or 20x20 cm approx. works well). Spread the apple slices evenly over the batter and then top with the remaining mixture and sprinkle with the brown sugar. Bake in an oven pre-heated to 180c/360F for about 40 minutes or until firm.

Chocolate-Banana pudding

This is a 'stodgy, cakey pud' - nice served with vegan ice cream, soy cream or custard. Good for using up overly ripened bananas.

Ingredients.

4oz/125g./scant half cup vegan margarine
4oz./125g./half cup sugar
4oz/125g./three quarters of a cup self-raising flour
1 tablespoon of cocoa
2 ripe bananas
1 cup soya milk

Mash the marg., sugar, bananas, cocoa and flour together in an oven proof bowl, and then use the soya milk to mix everything together well. You may need to add a little more soya milk to get a good cake-mix type consistency. Bake (yes - in the bowl) at 200C/400F for about 20 minutes until cooked.

Jam Roly Poly Pudding

Adrian warns 'Go easy with the roly poly - it has about 10 billion calories!'

Ingredients.

8oz/250g./generous 1 and a half cups of self raising flour

4oz./100g./scant half cup of vegetable suet

half to a third of a jar of jam (usually raspberry or strawberry) (jam translates as jelly for the USA)

Preheat oven to GM 6 / 400 °F / 200 °C.

Mix flour and suet in a bowl. Add a little water to form a dough (not too much so it isn't sticky).

Roll out to a square shape and spread with jam. Roll up into a sausage shape and sprinkle sugar on the top. Bake at top of oven for around 30-40 minutes until pastry is crisp and light brown.

Serve with custard (Several brands of custard powder are vegan and can be made with soya milk.

Banana Muffins

Ingredients:

200g./7 oz/1 and a half cups of white flour

50g./2oz./third of a cup of caster sugar

1 and a half tea spoons of baking powder

3 fl oz/100ml of orange juice

3 fl.oz/100ml of sunflower oil

2 mashed bananas (over ripe is best)

some soya milk as required

vanilla essence

dash of vinegar

Combine the dry ingredients in a bowl. Mix the wet ingredients - but not the vinegar - in a jug or bowl. Mix the two together and then stir in enough soya milk to make a smooth mixture and add the bananas, Finally add the dash of vinegar to get that lovely chemical reaction and mix well.

This should make enough to fill 12 cake cases. It's a good idea to put them in a muffin or patty tin to help them keep their shape but not totally essential. Bake for 10 - 15 minutes at 190 degrees and then cool.

A healthier version is to use wholemeal flour and unrefined dark sugar. This is equally delicious, but they don't rise as much and don't impress non-vegan visitors quite as well!!

Wheat/sugar free banana and date cake

Ingredients:

8oz/250g/one and a half cups of wheat free flour (we used Doves Farm organic and gluten free flour which is a mix of rice, maize, buckwheat and potato flours)

2 tsp baking powder
7 or 8 large dates, soaked
half a cup of water
2 very ripe bananas, mashed
1 cup of rice milk
half a cup of sunflower oil

1 tablespoon of vinegar

Mix the flour and baking powder. Liquidise the soaked dates in the half cup of water until fairly thick and smooth. Add the date mixture to the flour along with the rice milk, oil and bananas.

Mix well - you may need to add a little more water or rice milk as wheat free flours do vary greatly and tend to absorb more liquid than wheat. Add the vinegar at the last minute and then pour into 9"/18cm cake tin and bake at 190C/380F for about 40 minutes or until cooked through.

Catriona's Ginger and Macadamia fingers

Ingredients:

4oz/120g./scant half cup vegan margarine

Sandra's Versatile Fruit loaf

This can be eaten just as it is, or sliced and spread with vegan margarine, or marg and jam, and if you get fed up of it then use it as a pudding with custard or vegan cream poured over (that is why it is called "versatile" because it is).

Ingredients.

12oz/350g/2 and a half cups self raising flour (or 12 oz plain with 3tsp baking powder added.)

12 oz/350g./2 and a half cups mixed dried fruit

1/2 pint/1 cup/250 ml. tea

4 oz/100g./1 cup sugar (white is ok, brown better and muscavado is the biz)

2 tablespoons soya flour mixed with enough water to make a "single cream" type consistency (sorry about using the C for cream word, but don't know how to describe it otherwise).

Soak the sugar and fruit in the tea for a minimum of 2 hours, but the longer the better and overnight is ok.

Put oven on at between reg.2 and 3/150C/300F.

Grease a loaf tin with vegan margarine.

Add the flour and soya mix, till all incorporated, then put in the tin and bake for about 2 hours. I test to see if it is cooked by putting a skewer or thin blade knife in, and if it comes out clean the cake is done. Turn out on rack to cool.

Carol's Banana Shake

Ingredients.

1 ripe banana

1 pint/2 and a half cups soya milk

2 tablespoons natural soya yoghurt

2 tablespoons vegan vanilla ice cream

Whiz together and serve over ice. Very nice!

Banana Ice Lollies

Ingredients.

2 or 3 bananas

lolly sticks (you can substitute cocktail sticks for older children)

optional coverings:

melted chocolate or maple syrup

dried coconut
sesame seeds
chopped nuts
vermicelli (hundreds and thousands - some brands are vegan)

Cut the bananas into bite size chunks and push the lolly sticks into them. Place in the freezer on a covered freezer proof dish for a couple of hours or until frozen. They are delicious just like that but if you prefer a bit of decadence: dip each lolly in chocolate or syrup (be quick - it sets quite fast!) and then into dry ingredients of your choice (chopped nuts are our favourite). Perfect for all those wonderful long summer days that are coming (positive thinking)

NOTE

Yoghurt can be made in any sterile container with a rightly fitting lid inside any sort of incubator, such as an oven with the pilot light on or a styrofoam box, but because the secret of successful yoghurt making is a constant lukewarm temperature, it is best to use a special yoghurt maker Don't put incubating yoghurt near a heat source regulated by a thermostat that switches on and off. Use 2 tbsp/30ml of the home-made yoghurt to start the next batch. The cost of making yoghurt at home is minimal and the method is easy.

Mandarin Noodles

 Categories : Vegetables Vegetarian

Chinese Dishes		
Amount	Measure	Ingredient -- Preparation Method
4		dried Chinese mushrooms
1/2	pound	fresh Chinese noodles
1/4	cup	peanut oil
1	tablespoon	hoisin sauce
1	tablespoon	bean sauce
2	tablespoons	rice wine or dry sherry
3	tablespoons	light soy sauce
1	teaspoon	sugar or honey
1/2	cup	reserved mushroom soaking liquid
1	teaspoon	chili paste
1	tablespoon	cornstarch
1/2		red bell pepper -- in 1/2 inch cubes
1/2	8 ounce can	whole bamboo shoots, cut in 1/2in cubes -- rinsed and drained
2	cups	bean sprouts
1		scallion -- thinly sliced

Soak the Chinese mushrooms in 1 1/4 cups of hot water for 30 minutes. While they are soaking, bring 4 quarts of water to a boil and cook teh noodles for 3 minutes. Drain and toss with 1 tablespoon of peanut oil; set aside.

Remove the mushrooms; strain and reserve 1/2 cup of the soaking liquid for the sauce. Trin and discard the mushroom stems; coarsely chop the caps and set aside. Combine the ingredients for the sauce in a small bowl and stir well to dissolve the sugar; set aside. Dissolve the cornstarch in 2 tablespoons of cold water; set aside.

Place the wok over medium-high heat. When it begins to smoke, add the remaining 3 tablespoons of peanut oil, then the mushrooms, red pepper, bamboo shoots, and bean sprouts. Stir-fry 2 minutes. Stir the sauce and add it to the wok, and continue to stir-fry until the mixture begins to boil, about 30 seconds. Mix the dissolved cornstarch and add it to the wok. Continue to stir until the sauce thickens, about 1 minute. Add the noodles and toss until heated through, about 2 minutes. Transfer to a serving platter and sprinkle with the sliced scallion. Serve immediately.

NOTES : Because of the chili paste in the sauce, this is a rather hot dish. If you prefer less spicy food, cut down on the chili paste or leave it out entirely...the noodles are still delicious without it.

Bring water to boil under a steamer. Place the lettuce leaves on a heat-proof plate and arrange the dumplings on the lettuce. Cover and steam for 10 minutes. Serve immediately with Spicy Soy Dipping Sauce.

Classic Black Bean Soup

Amount	Measure	Ingredient	Preparation Method
1 3/4	cups	black beans -- soaked overnight	
12	cups	water	
2	teaspoons	olive oil	
1 1/2	cups	onion -- diced	
2	teaspoons	garlic -- minced	

1/2	cup	green onion -- diced
3/4	cup	carrot -- diced
3/4	cup	red bell pepper -- diced
2	teaspoons	ground sage
1		bay leaf
1	teaspoon	ground rock salt or salt-free seasoning
2	teaspoons	powdered vegetable broth (1 veg. buillion)
	dash	freshly ground pepper -- to taste

Discard soaking water from beans. Beans will have swollen to much more than 1 3/4 cups, so do not remeasure the soaked beans.

In large, heavy bottomed soup pot, heat olive oil or water and onion, garlic, green onion, carrot, and red pepper. Add sage and bay leaf and saute for several minutes or until onions begin to wilt. Add soaked and drained beans and fresh water. Bring to a boil and skim off any scum that may form on the top.

Reduce cooking temperature to low, cover soup and allow to cook for 3 hours, stirring occasionally and taking care that heat is low enough so that beans do not stick.

At end of cooking time, uncover and allow soup to continue cooking as you stir in salt, if desired, powdered vegetable broth and fresh pepper to taste. Discard bay leaf. Use hand blender to puree soup to desired consistency, breaking down only about half the beans, or transfer half the soup to a blender, puree and return to soup pot. Adjust seasonings.

Amount	Measure	Ingredient -- Preparation Method
1 3/4	cups	black beans -- soaked overnight
12	cups	water
2	teaspoons	olive oil
1 1/2	cups	onion -- diced
2	teaspoons	garlic -- minced
1/2	cup	green onion -- diced
3/4	cup	carrot -- diced
3/4	cup	red bell pepper -- diced

1		bay leaf
1	teaspoon	ground rock salt or salt-free seasoning
2	teaspoons	powdered vegetable broth (1 veg. bullion)
	dash	freshly ground pepper -- to taste

Discard soaking water from beans. Beans will have swollen to much more than 1 3/4 cups, so do not remeasure the soaked beans. In large, heavy bottomed soup pot, heat olive oil or water and onion, garlic, green onion, carrot, and red pepper. Add sage and bay leaf and saute for several minutes or until onions begin to wilt. Add soaked and drained beans and fresh water. Bring to a

boil and skim off any scum that may form on the top. Reduce cooking temperature to low, cover soup and allow to cook for 3 hours, stirring occasionally and taking care that heat is low enough so that beans do not stick. At end of cooking time, uncover and allow soup to continue cooking as you stir in salt, if desired, powdered vegetable broth and fresh pepper to taste. Discard bay leaf. Use hand blender to puree soup to desired consistency, breaking down only about half the beans, or transfer half the soup to a blender, puree and return to soup pot. Adjust seasonings.

1/8 teaspoon Celery seed
1/2 teaspoon Chopped fresh oregano

These plant-based sausages taste great, contain no added fat except the vegetable oil they're fried in, and are easy to make. These ingredients yield fairly mild sausages; after you've tried them, adjust the seasonings to please your palate.

DIRECTIONS: Combine all ingredients in a mixing bowl, mix thoroughly, and shape into 1- to 2-inch sausages. Saute in a small amount of vegetable oil until crisp, or place in a baking pan and broil, turning when edges are slightly crisp. Serve with Mushroom-Red Pepper Sauce (below).

MUSHROOM-RED PEPPER SAUCE: Cook red pepper in vegetable broth for 5 to 7 minutes until tender. Add mushrooms, onion, salt, celery seed, oregano, and black pepper. Cook 5 minutes longer or until onion is transparent.

Quickly whisk in enough flour to just thicken the sauce, about 2 tablespoons at a time. Immediately remove from burner. Do not overcook, or flour will cake. If needed, add more vegetable broth or water. Serve over sausages, whole grains, or vegetables.

BLACK BEAN CHILAQUILES

Serving Size : 8

Categories : Vegetarian Low-Fat

Amount Measure Ingredient -- Preparation Method

12 Corn Tortillas
1 Onion chopped
10 fluid ounces Stock
3 Cloves garlic crushed
1/2 teaspoon Cayenne pepper
1/2 teaspoon Ground cumin seed
1/2 teaspoon Chilli powder
2 pounds Cooked black beans -- or 3s (14 oz each) kidney -- beans drained

15 fluid ounces Tomato sauce flavoured with -- pinch each of cayenn
8 ounces Mozzarella cheese finely -- shredded
6 tablespoons Parmesan cheese
Chopped fresh coriander
Lime wedges

1. Pre-heat oven to 300 degrees F, 150 degrees C, gas mark 2.
2. Bake the tortillas directly on the oven shelf for 15 to 20 minutes, turning once until crisp right through. They will break with a clean snap. Break into coarse pieces and set aside.
3. Spread onion pieces out in a heavy frying pan. Cook over moderate heat without stirring until the onions are sizzling and beginning to stick to the pan. Stir in the stock and let it bubble up, stirring up the browned deposits in the pan as it bubbles. Stir in the garlic and the spices. Turn the heat down and simmer, stirring frequently until the mixture is thick, not at all soupy, and the onions and spices are frying in their own juices. Don't rush this step. It is essential that the spices should not have a harsh raw taste.
4. Stir in the black beans and heat gently. Mash roughly while still in the pan, with a potato masher. You want a rough lumpy mixture, not a smooth puree. Set aside.
5. In a gratin dish spread a layer of a third of the tortilla pieces.

Spread a layer of the black beans over the tortillas and spread a third of the tomato sauce over the black beans. Sprinkle with one third of the cheeses. Repeat this, ending with a layer of the beans, sauce and cheeses.

6. Bake for 30 minutes covered. Uncover, and bake for 5 to 10 minutes more. Serve garnished with lime wedges.

- 2 tablespoons Freshly grated Parmesan
- 1 teaspoon (heaped) Dijon mustard

Make a smooth batter with the flours, eggs, milk and water, then stir in the cool melted butter for extra richness and to prevent sticking during cooking. Use a 6-inch pan and make thin pancakes in the usual way, but be sure to stir the batter vigorously in between making each pancake or all the buckwheat flour will sink to the bottom of the mixture. If preparing ahead, cool the pancakes then stack them (interleaved with greaseproof paper) and wrap in a foil parcel.

To make the filling, wash and boil or steam the spinach until just tender.

Chop it and squeeze out all the liquid (save the juices for a soup). Chop the onion finely and sweat it in a knob of butter until it's deliciously soft. Stir in the spinach, season with a little salt, lots of pepper and the garlic. Toast the walnuts and crumbled Stilton into the spinach mixture to give it savoury flavour and bite. Stuff the pancakes with the mixture, roll them up neatly and pile them into a lightly buttered gratin dish. Cover with foil and heat through in the oven for 25-30 minutes at 400 F (200 C) gas mark 6.

Make a smooth rich sauce with the butter, flour, stock (preferably good chicken stock) and cream. Let it simmer for about 5 minutes, stirring once or twice, then season with the cheese, mustard and salt and pepper. If the sauce is made ahead, reheat it in a double-boiler for serving, then pour it over the dish of pancakes just before bringing to table.

SUPER FAST BREAD RECIPE

Servings : 1

Categories : Breads Sandwiches Vegetarian

3 cups Flour *see note below

1 2/3 cups ;water, cold

1 teaspoon Salt

1 tablespoon Yeast, dry

1 tablespoon Honey

: Heat 3 cups of flour for 2 minutes in the microwave.

: While that's happening, measure the water. Add salt, dry yeast and a dollop of honey. It looks like a mess, but don't worry about it.

: Quickly take the hot flour and mix in the water combo with an electric mixer. It should be sticky and gooey. If your mixer is having trouble, just add more water. Mix it around as long as you want.

: Now, cover it, put it in a cool place, go away and ignore it. Go to work, take a walk, go to sleep, whatever. If you happen to pass the poor neglected thing during the day, pound it around a little with a wet spoon. If you are going to ignore it for more than 8 hours, put it in the refrigerator. If you are in a hurry, ignore the ignoring part and proceed to the next step.

: Pound your sticky dough around with a wet spoon to pop all the bubbles, then slop it into a well oiled bread pan (do not whisper sweet nothings in its ear). Set a timer and let the dough rise in a warm spot for 10 minutes. If it was kept in the refrigerator, let it sit a little longer. Set your timer again for 10 minutes and turn on your oven at 350 degrees. When it's hot, put the bread in and set the timer for 50 minutes.

Select Recipes - Breakfast

Eating breakfast out? Try a bowl of grits or oatmeal, hashbrowns, a bagel or toast with jelly, or a fruit cup. Take along your own dairy-free margarine or a cream cheese substitute. For breakfast at home, try these ideas:

- Fry up some sliced boiled potatoes and onions for homemade home fries. Serve with soy bacon or sausage.
- Surf the Web for vegan recipes for French toast, Spanish omelettes, and even crêpes.
- Try a toasted bagel with Tofutti brand Better Than Cream Cheese.
- You can find vegan cereal anywhere—just serve it with soy or rice milk instead of cow's milk!
- Check packages of pancake and waffle mixes—many are vegan—just add soy milk and/or egg replacer.
- Some Kellogg's Pop Tarts (without icing) are vegan, as are Pepperidge Farm's apple and cherry turnovers.
- Eggs are cholesterol bombs, so try scrambling tofu instead.

Chocolate Recipes

Fantastic (very rich) Chocolate Cake

Ingredients:

1 and a half cups unbleached white flour
1/3 cup unsweetened cocoa powder
1 teaspoon baking soda
1 cup sugar
half a cup of mixed, chopped nuts (optional)
1/2 cup vegetable oil
half a cup cold water or soy milk
half a cup of orange juice
2 teaspoons vanilla extract
2 tablespoons vinegar

Preheat oven to 375 degrees. Sift dry ingredients into 8" square or 9" round baking pan. Mix liquids (except vinegar) and whisk into dry. When batter is smooth, add vinegar and stir quickly, until it is evenly distributed. Put it in the oven, don't let it stand around (that has something to do with the vinegar) Bake for 25-30 minutes...or longer until done. This cake is great served with Provamel's soya dream (cream like).

Chocolate Brazil Nut Squares with truffle topping

Ingredients:

200g/7oz. dark chocolate
250g/8oz. packet of biscuits/cookies (digestive or oat ones work well) - broken down to crumb texture
100g/4oz. brazils nuts crushed or broken down in a processor
2 tablespoons of vegan margarine
2 tablespoons of golden syrup
half a box of vegan cream (about 100ml.)

Melt the chocolate in a bowl over hot water. In a pan, slowly melt together the margarine and syrup and then combine this with HALF the chocolate. Stir in the crushed biscuits and nuts and press this into a greased 9" by 9" tin or something of similar size. Beat the soya cream into the remaining 100g or so of chocolate and spread this on top. Chill in the fridge for a couple of hours until set and cut into squares.

Choc, Fruit and Nut Cookies

This recipe makes about 40 small (2 inch/6cm) cookies

Ingredients:

150g/5oz/three quarter cup caster sugar

150g/5 oz/three quarter cup vegan margarine

5 tablespoons of soya milk

300g/10 oz/1 and a half cups of plain flour

teaspoon vanilla extract (or according to pack instructions)

a handful each of: chocolate chips, chopped nuts and raisins.

Preheat oven to 200C/400F and grease cookie sheets. Cream together the sugar and marg. Mix in the soya milk and vanilla and then the flour. The mixing of the flour is best done with your hands (messy but fun!). Add the choc, nuts and raisins and mix well. You should have a workable dough (add more flour if it's too wet or more soya milk if too dry and doesn't hold together well). Roll out on a floured board (to just under 1 cm thick) and cut into cookies. Lay on cookie sheets and bake for about 10 minutes for soft bake cookies or a little longer for dryer, crunchy ones.

Variations: Leave out the choc, nuts and fruit and half dip the cooled cookies in chocolate - choccy biscuits! Crushed Whizzers chocolate beans are a colourful replacement for chocolate chips. They can also be pressed all over the top prior to baking. Plain cookies with a handful of sesame seeds or desiccated coconut added into the dough are delicious. Plain cookies with a square of chocolate pressed onto them before baking work well too.

Lisa's ([from www.veganstore.co.uk](http://www.veganstore.co.uk)) Peanut Butter Crunch

6 cups of cornflakes or rice crispies

1 cup of golden syrup

1 1/2 cups of peanut butter

8oz of choc chips (or as much chocolate as you want)

Lightly oil a baking tray. Place the cornflakes in a big bowl ready. Then heat the golden syrup in a saucepan until thin and runny. Remove from the heat and beat in the peanut butter until smooth. Pour the mixture over the cornflakes and mix well.

Push the mixture into the baking tray to form a slab (I find pushing it down with a potato masher works). It should be firmly packed. Then melt your chocolate chips and pour over the top.

Refrigerate for at least 3 hours then cut into bars or bite size chunks.

MMMMmmm.

Cat's Amazing Chocolate Recipies!

Visit Cat's [Vegan Travel](http://www.vegantravel.com) site.

Ok so here is an instalment of all things vegan and chocolatey to inspire those who thought they would never again be able to sample the delights of chocolate heaven. If what you want isn't here then let me know by [email](mailto:cat@vegantravel.com). I'm not claiming any of this is healthy so don't blame me for over-consumption!

NB. Chocolate refers to plain (ie.- no other added flavours) vegan chocolate of your choice.

CAT'S LUCIOUS TRUFFLES

100 - 200g chocolate

1 pkg silken tofu (blended to a cream)

1/2 cup maple syrup

1 cup almonds/ hazelnuts (whole or pieces)

Put the maple syrup in a pan and bring to a boil. When boiling add the nuts and stir constantly until it is almost dry (ie the nuts are all sticking together and the syrup is not runny) empty out onto some greaseproof paper and allow to cool.

Meanwhile melt the chocolate in a bowl over simmering water. DON'T allow the bowl to touch the water. It should be just above it.

Blend the praline (nut mixture) into either a fine powder or a coarse mixture and stir into the chocolate. Fold in the tofu. When it is all mixed take off the heat allow to cool. The cover and place in the fridge until well chilled.

Work quickly and form into small balls. Roll in cocoa powder or grated chocolate or dip in melted chocolate and allow to set. Eat in moderation, as they are incredibly rich!

OTHER VERSIONS

If you don't like nuts or have an allergy they can be left out but add a tablespoon or two of sugar or maple syrup to the tofu while blending it (taste as it may need more or less depending on the brand of chocolate you use).

Either basic truffle mixture can be flavoured with a tbs of liqueur, or flavoured syrups. Extra nuts, dried fruit, fresh fruits diced up or rice crispies (for crunch!) can all be added to the basic mixture. Experiment...

The basic mixture makes AMAZING chocolate spread or how about cutting out rectangles of vegan puff pastry and spreading a layer of the truffle mixture onto it, fold it over (chocolate side in!) and bake in the oven (follow temperature and times on the packet of pastry) and you have vegan pain au chocolat !!

PLAIN FUDGE

850g/1 3/4 lb sugar

300mls/ 1/2 pint soya milk

120g/ 4oz soya margarine (this is better for a more 'buttery' flavour)

2 tsp vanilla extract

Oil a square tin (about 18cm/7 inch). Pour the soya milk into a pan and slowly bring to the boil. Add the sugar and the soya margarine and heat slowly, stirring constantly until the sugar is dissolved and the margarine has melted. Bring to the boil and cover the pan. Boil for 2 minutes, then uncover and continue to boil stirring occasionally until it reaches soft ball stage (it is sort of essential that you use a sugar thermometer for this...it should read 115-116C/238 to 240F). Take off the heat and stir in the vanilla extract and leave to cool for 5 minutes. Beat until it begins to lose its gloss and is thick. Pour into the tin and allow to cool before cutting into squares. (of course vegan fudge can be bought from both VIVA! And Dr Hadwens Trust)

ARES BARS -Vegan Mars Bars

From Uncle Stevies recipe column - <http://www.veggies.org.uk>

NOUGAT

2 Cups of Soya Milk

9 oz. Soya Marg.

24 oz. Sugar

2 tblsp. Vanilla Essence

12 oz. dried Soya Milk

Put the milk, marge and sugar into a thick saucepan and heat, without stirring, on a low heat until it bubbles all over and triples in size.

Keep at this heat for 2 min (if you have a sugar thermometer, it should be 235 F./112.8 C.)

Cool.

Add the vanilla essence and the dried soya milk and beat till creamy.

Pour into baking trays roughly the size of 48 mars bars and freeze for an hour.

TOFFEE

12 oz. Sugar 12 oz. Soya Marge 250 ml Soya cream 3 tbsp Golden Syrup

Put everything in a thick bottomed saucepan and heat on a low heat till it bubbles all over and triples in size

Keep at this temperature for 4-5 minutes, stirring constantly.

Pour the toffee over the nougat and freeze for another hour.

Cut into mars bar size pieces and re-freeze until the toffee is solid (this can take a couple of days.)

Melt 1200g of vegan chocolate in a microwave if you have one (3 minutes full power per 100g) or place into a bowl above a saucepan of boiling water till melted.

Coat the bars with chocolate and place onto a greased tray. Re-freeze.

The Marathon Variation (Thermopylae Bars)

Replace vanilla essence with 340g jar of crunchy peanut butter (without the jar) & 20g chopped, un-salted peanuts.

These basic nougat and toffee recipes can be used to make a whole range of vegan versions of chocolate bars.

CRUNCHIES

2lb sugar (brown or white)

1 cup cold water

2 tsps bicarbonate of soda

Boil the sugar and water in a DEEP pan for 20 minutes. Test in cold water until the sugar mixture is crisp and cracks easily. Remove from heat and add the bicarbonate of soda. This will make the mixture puff out and froth up in the pan. Pour into an oiled tin and cut when half cold. When cooled dip in melted chocolate.

CHOCOLATE BUBBLE BATH - do not eat!!

200 ml./1 cup of unscented bubble bath (as sold by Meadowsweet, Dolma and Honesty)

70g./3 oz. of dark chocolate

optional - add some cinnamon or ginger for a stimulating bath

Heat the soya milk and add in the chopped chocolate, stir well until melted. Do not boil. Allow cooling down. Mix with the bubble bath and pour into your bath and enjoy...

Savoury Festive Recipes

Cashew Nut Roast with Sage and onion stuffing

A sixth of a cup/30g/1oz of vegan margarine

2 sticks of celery, finely chopped

1 medium leek, finely chopped

1 and a half cups of hot water

1 teaspoon of yeast extract (marmite, vegemite etc.)

3 cups/550g/16oz of ground cashew nuts (or other nuts of your choice - almonds work well too)

2 Tablespoons of soya flour

2 teaspoons of fresh herbs - winter savoury is great (if using dried 1 teaspoon)

3 cups/160g/6oz of white bread crumbs

seasalt and pepper to taste

sage and onion stuffing (see recipe further down the page)

Melt the margarine (in a large pan for mixing) and cook the celery and leek in it for a few minutes. Mix the yeast extract into the hot water (alternatively you could use any stock you like) and add this to the leek and celery. Stir in the soya flour, nuts, herbs, breadcrumbs and salt and pepper and mix well. Allow to cool slightly while you grease a loaf tin. Place half the nut roast mixture in the tin and press down well - then add the sage and onion stuffing (pressing down well again) and place the rest of the nut roast mixture on top. Bake in the oven for about 40 minutes at 180/360 then turn out of the tin and slice. Nice served with all the traditional trimmings.

Variations:- you can substitute wine (red or white) or soya milk for the water and yeast extract. The sage and onion stuffing is optional - it works just as well without it and might actually slice up easier! A layer of sliced mushrooms and garlic is an alternative to the stuffing.

Creamy mushroom Puff

A third of a cup/60g/2oz of vegan margarine

4 tablespoons of plain white flour

1 onion

4 cloves of garlic, crushed or very finely chopped (this can be reduced or left out if desired)
3 cups of mushrooms, sliced
half a litre/500ml of soya milk
1 glass of white wine (or stock)
handful of chopped parsley
salt and pepper to taste
approx. 500g/18oz of frozen puff pastry (this even comes ready-rolled now for extra laziness!!!)
Melt the margarine and cook the onion and garlic in it for a few minutes and then add the sliced mushrooms and cook for a couple of minutes more. Add the flour and stir well. Gradually add the soya milk stirring all the time and then the wine and keep stirring on a low heat until the sauce thickens. Once thick remove from the heat and add your seasoning and the parsley. Allow to cool slightly while you prepare the pastry. Roll out into 2 wide rectangular shapes reserving some pastry for decoration. Place one sheet of pastry on a greased baking tray. Heap the slightly cooled sauce onto it leaving a space round the edges. Place the top sheet on and seal up the edges with some soya milk or water (fold over if needed). Make some small slits on the top of the puff and let your artistic side shine with the reserved pastry! I usually make holly leaves to place on the top but do whatever you like. Glaze with soya milk and then bake in a medium hot oven for about half an hour or until the pastry seems cooked (no soggy bits and nicely puffed up!)
Nice served with gravy, roast potatoes, stuffing, vegan sausages, cranberry sauce and vegetables of your choice - a feast!

In a blender mix together approx. 1 cup defrosted vegemince or 1 cup rehydrated soya mince, remaining tbsp of mushrooms, enough sundried tomato puree to bind it together and some fresh basil

Stuffing

chop an onion finely and mix it with 1 cup oats to 1/2 cup suet, 1 tsp mixed herbs and some salt and pepper. bind with a little water to form a sausage...be careful not to add too much water.

Have ready some defrosted vegan puff pastry rolled out into a rectangle.

Assembly

Get the puff pastry and spread it lightly with sundried tomato paste and stick basil leaves on to this. Get the cooled mushroom risotto and spread it onto the pastry leaving room at all ends... you wont need all the risotto. On top of this place the soya mince filling and then place the stuffing sausage along the centre. Fold up the sides until they meet in the middle...hopefully!! If they are reluctant to stick down then brush with a little soya milk. Put on a baking tray. It is advisable, if possible, to raise the pastry parcel off the tray using a rack as I have found the bottom has a tendency to burn. You can now leave it until Christmas Day! To cook follow the temperature guide on the packet of puff pastry. Easy!

Spinach-Tofu Manicotti by Secular Pagan

Not exactly a traditional Yule/Christmas dish, but it's red, white, and green, so it fits.

FILLING:

(stuffs about ten manicotti "tubes")

1 pound/450g firm tofu, drained and rinsed

1 10-oz/300g box frozen spinach, thawed and squeezed dry

1 Tbsp. Italian seasoning (blend of oregano, marjoram, thyme, rosemary, basil, sage)

3 green onions (scallions), including green part, sliced thinly

8 ounces/230g (more or less) white button mushrooms, chopped in big chunks

PASTA:

1 package large manicotti tubes

SAUCE:

About 28 ounces/750g of your favorite pasta sauce, homemade or prepackaged

Plop tofu into a medium-sized mixing bowl and mash/crumble with your hands. Add spinach and fold into tofu with a fork, using fork to break up strands of spinach and mix evenly with the crumbled tofu. Stir in Italian seasoning, onions, and mushrooms.

Boil about 10 manicotti tubes just shy of al dente (they won't fall apart this way when you're stuffing them) and drain. Use your fingers to push clumps of filling into the manicotti tubes till each one is plump and full. Lay them in a covered casserole dish (more than one layer is O.K.) and pour your favorite tomato-based pasta sauce (homemade or bottled) over the whole thing. Cover and bake at 350 degrees Fahrenheit for about an hour, maybe a little less (say, 45 minutes) if you have the manicotti spread out in a single layer. Remove from oven and give it a few minutes to cool off before attempting to eat.

Note: I have to keep my sodium intake low, so I don't add salt to anything I make from scratch (except some baked goods), so some of you might prefer to add a 1/2 teaspoon of salt to the filling.

Cranberry, Orange and Ginger sauce

3/4 cup/150g/5oz sugar

1/2 cup/150ml/quarter pint of orange juice

zest of 1 lemon

1 teaspoon of fresh grated ginger (or half a teaspoon of dried ginger)

2 cups of fresh cranberries

pinch of salt

Place the cranberries, orange juice and ginger in a pan and simmer for about 10 minutes. Give the berries a mash and add the sugar, zest and salt. Cook gently until all the sugar is completely dissolved. The sauce will thicken up as it cools slightly. Nice served hot or warm with nut roast or mushroom puff and parcel.

Cheat's nut roast rolls!

Very simple if you buy a vegan packet mix for a nut roast and some frozen puff pastry! Simply make up the nut roast mix and place it in the puff pastry in roll shapes. Nice done like cocktail sausage rolls for serving with drinks. Bake in a medium oven for about 20 minutes.

Sage and Onion Roast Potatoes

4 teaspoons of dried sage or 8 teaspoons of freshly chopped sage

4 tablespoons of sunflower oil

1 finely chopped onion

4 tablespoons of medium oatmeal

Potatoes, peeled and cut to desired size (this coating is enough for about 4 or 5 lbs/2 or 3 kilos.)
salt to taste

Par boil the potatoes then just when they are beginning to soften remove from heat and drain. Place in baking tray and rub the coating all over them (careful!) - roast in a hot oven until nice

and crispy (30 minutes plus). You might want to baste with a little more oil half way through for extra crispiness!

Variation: sesame roast potatoes - coat the potatoes in sunflower oil and plenty sesame seeds before roasting - this has a lovely flavour too.

Sage and Onion stuffing

6 slices of wholemeal bread

half a cup/85g/3oz of vegan margarine

4 teaspoons of dried sage or 8 of fresh, chopped sage

1 finely chopped large onion

salt to taste

Melt the margarine in a saucepan and then cook the onion in it until soft. Break up the wholemeal bread with your hands (into fairly small pieces) and then mix into the onion and margarine with the sage and salt. This can be pressed into an oven-proof bowl for baking or if you like meat analogues it can be sandwiched between two Redwood Cheatin' Turkey Roasts (see below for turkey substitute links), wrapped in foil and baked in the oven!

Skirlie (traditional Scottish oatmeal stuffing - quite bland, not to everyone's liking!)

1 cup of medium oatmeal

1 large onion, finely chopped

4 tablespoons of sunflower oil

a little salt

Cook the onion in the oil until soft and then stir in the oatmeal and salt and cook for a few minutes longer, stirring frequently to prevent sticking - then use as Sage and onion stuffing.

Sweet Festive Recipes

Easy, Last Minute Christmas Fruit Cake by Jean

This cake has no added sugar or fat (suitable for a range of diets) but is still really sweet and rich. It should be stored in the fridge and eaten within one week.

8oz/250g/2 cups of cooking dates with the stones removed

10 fl.oz/300ml/1 and a quarter cups of water (you could substitute a quarter cup of brandy or sherry for a quarter cup of the water if you like)

6oz/175g/1 and a quarter cups of wholemeal flour

1 lb/450g/3 cups of mixed dried fruit of your choice - including lots of dried apricots works very well

2 teaspoons of baking powder

1 teaspoon of mixed spice

4 tablespoons of orange juice

For decoration: You can either do a traditional marzipan and white icing topping or use rows of different nuts such as walnuts, pecans, brazils and almonds.

Heat the dates and water until the dates are soft. Remove from heat and mash with a fork. Add all the other ingredients and mix well. Spoon into a greased 2lb/900g cake tin and level top. If using the nut topping place rows of different nuts on top of the cake prior to cooking. Bake at 170C/340F for about an hour and a half until cooked. Once cooled the nut topping can be glazed with a little syrup (melt some sugar into hot water) or you can ice traditionally.

Cranberry Ginger Bars by [Luree](#)

Base and Topping:

2 cups flour

3/4 cups brown sugar

1 and a half teaspoons of ground ginger

1/4 teaspoon of salt

1 cup of margarine or vegetable shortening

1 cup of rolled oats

3/4 cup of raw sunflower seeds

Mix all ingredients together. Set aside 1 and a half cups of crumb mixture for topping. Press the remainder into a 9" by 13" baking pan. Bake at 180C/350F for 15 minutes. Spread with cranberry mixture and sprinkle with remaining crumbs. Bake for another 30 minutes. Yummy!

Chocolate Yule Log Cake (for people who can't do swiss roll!!)

1 chocolate cake baked in a loaf tin (or 1 chocolate swiss roll if you can do it!!)

1 batch of vegan chocolate 'butter' icing: Beat together half a cup/130g/4oz vegan margarine with 1 and a third cups/210g/7 oz sifted icing sugar and one tablespoon of cocoa (also sifted to avoid lumps). Beat in a few drops of natural vanilla extract.

1 tablespoon of icing sugar for dusting

1 festive cake board or large plate and decorations of your choice (fake flowers or berries, holly leaves, small baubles etc.)

Cake Assembly:

Cut the corner off one end of the cake and turn it round to look like a branch (excuse rough drawing!) - arrange on the cake board or plate.

Secure the branch with some of the icing.

With a knife smooth off the corners of the log to make it rounded.

Cover the entire cake with the rest of the icing, then use a fork to make lines and knots like a log
:)

Dust with icing sugar.

Decorate to your hearts content.

Little Chocolate logs

1 chocolate cake prepared in a large square tin so it will not be too deep (visit [the chocolate room](#) if you need a recipe for this)

vegan marzipan

maya gold (preferably though any dark vegan choc. will do)

icing sugar for dusting

glace cherries and crystallised angelica for decoration or children might prefer Whizzers

chocolate beans or other sweets

Cut the cake into small rectangles (10 cm. X 4 cm. and 2 or 3 cm. deep). Cut thin pieces of marzipan and place on top of the cakes. Pour melted chocolate over the top of each log, decorate to your hearts content and then dust with the icing sugar (snow!).

Easy chocolate-rum truffles

Some left over cake, crumbled - about 2 cups

2 tablespoons of Apricot jam

2 tablespoons of rum (or rum flavouring)

1 teaspoon of cocoa

50g./2oz (half a large bar) of vegan chocolate, melted

Coating of choice - cocoa, chopped nuts, coconut etc.

Mix everything together and then squeeze into balls (about 5 cm. diameter) and roll in the coating. Place in petit four cases.

Festive Sweets

Making your own sweets is actually quite fun - children have a great time with this too. They are also nice gifts if placed in a pretty box or packet.

Vegan chocolate - I recommend Maya Gold for these - it's orange spiciness is perfect for this time of year.

Nuts of your choice (hazel, walnut, pecan, almond, brazil)

Vegan marzipan (many supermarkets stock this)

Dates

Dessicated coconut

Cocoa

Icing sugar

Crystallised angelica

Glace cherries

Flaked almonds

It's very simple! Melt the chocolate and then dip things in it - nuts, marzipan balls, dates - and then place them on a sheet of grease-proof paper to set. Decorate with angelica, glace cherries (can be made to look like holly) and flaked almonds before the chocolate sets and then you can sprinkle with cocoa, coconut or icing sugar.

Dates can be destoned and stuffed with marzipan for a non-chocolate treat.

Place in petit four cases and enjoy!

Vegan Trifle also by [Catriona](#)

I loved this so much before I was vegan that I veganised it one year and it is excellent... you can leave off the 'cream' layer if you like but I think it makes it!

Make a plain vegan sponge and sandwich it together with jam. Slice it up and put it on the bottom of a trifle dish (or other suitable deep dish) drain a tin of fruit and put on top of the sponge (or use fresh fruit. I like raspberries). Next make up a vegan jelly and pour on top of everything... leave to set. Make up custard with soya milk and pour that on top of the set jelly. Leave that to set. Now put on a thick soya cream made with...2 tbsp cornflour, 2 oz/60g vegan margarine, 1 oz/30g sugar, 1/2 tsp vanilla essence and 1/2 pt/250ml/1 cup of soya milk... blend the cornflour with a little soya milk. Add the rest of the milk gradually and transfer to a saucepan. Bring to the boil gently and stir until the mixture thickens. Set aside to cool. Cream the margarine with the sugar until pale in colour. Beat in the cooled cornflour mixture a little at a time. Add the vanilla essence.

Put the cream layer on top of the chilled custard layer. Decorate with fresh fruit and then eat voraciously.

The cream can also be turned into brandy cream by adding a spoonful of brandy...serve with Christmas pudding

Servings Per Recipe 10

FILLING

2 teaspoons olive oil

1 large onion, diced

3 small zucchini, sliced

1 1/2 pounds collard greens, chopped (about 24 collard leaves)

8 garlic cloves, minced

1/2 teaspoon sea salt

TOFU-"FETA" MIXTURE

1/2 cup almonds

1/2 cup pine nuts

2 pounds tofu, firm (pressed to remove as much water as possible)

1 tablespoon olive oil

2 3/4 teaspoons sea salt

1/2 teaspoon ground black pepper

1/2 cup fresh parsley, chopped

SAUCE

8 servings 15-Mediterranean Tomato Sauce

PASTA

1/2 pound no-boil/oven-ready rice lasagna noodles

(or no-boil/oven-ready whole wheat lasagna noodles, but only if the dish can have some gluten)

(if you want to use regular lasagna noodles, prepare as indicated, and then use them in this recipe as directed) (about 9-12 inch pieces)

GARNISH

4 tablespoons basil, fresh, chopped

FILLING

To prepare the filling, heat a skillet over medium-high heat and add oil. Saute onion, zucchini, collard greens, and garlic, sealing them one at a time (about 40 minutes total). After sealing, season vegetable mixture with salt.

Turn off heat.

TOFU-"FETA" MIXTURE

During this process, prepare the tofu-"feta" mixture using a food processor. Add almonds and pine nuts first, and grind. Add the remaining tofu-"Feta" mixture ingredients except the parsley, and blend until smooth. Fold in the chopped parsley.

To assemble, use a large (about 9"x13") baking pan. Spread a thin layer of sauce in the bottom of the pan (about 1/2 cup). Place 3 pieces of lasagna noodles (about 1/3 of the noodles) in the bottom of the pan.

You don't want the noodles to overlap since the pasta will expand during baking. Spread half of the tofu-"feta" mixture over the noodles. Then spread half of the vegetable filling on top of the tofu-"feta", and then cover with about one third of the sauce. Put down 3 more pieces of lasagna noodles and cover again with the other half of the tofu-"feta", the other half of the vegetable mixture, and another 1/3 of the sauce.

Place the last 3 lasagna noodles on top of this covering it thoroughly with sauce. There should be 3 layers of noodles, and 2 layers of tofu-"feta"/filling. Cover pan with foil, and bake in a 375 degree F (190 degree C) oven (no need to preheat oven) for 40 minutes, then remove foil and bake 10 minutes more to give the top layer a golden brown appearance.

Serve garnished with basil.

VARIATIONS:

- For a faster dish, use a store bought tomato sauce instead of making the Mediterranean Tomato Sauce from scratch.

- You can use regular lasagna noodles (ones that are not oven ready and need to boil): follow instructions to boil noodles and use just as described above.

Millet-Bean Patties

Makes 8 servings.

Preparation Time: 1 hour, 10 minutes

Serving Ideas: Serve with salsa if desired.

- Roasted vegetables (especially the garlic clove halves) heighten the flavor of these patties. I like the chunks of vegetables in the patties, rather than a completely uniform texture.

- Read the recipe directions to see if you might like to make this a day ahead, or maybe earlier in the day (depending on your plans).

MILLET

3/4 cup millet, washed

2 1/2 cups no-salt-added vegetable broth, (or water)

1/2 teaspoon olive oil

1/2 teaspoon sea salt

1/2 teaspoon cumin powder

(or leftover cooked millet and skip millet cooking instructions)

ROASTED VEGETABLES

1 small onion, chopped
4 large carrots, sliced 1/4" thick
12 garlic cloves, cut in quarters
1 teaspoon olive oil
1/4 teaspoon sea salt

FINISHING

2 ounces canned diced green chiles
1 cup pinto beans, cooked, mashed
(see "Glossary of Cooking Terms" for more information about cooking beans)
(or refried beans, canned or home-made)
1/4 cup pine nuts
1 tablespoon tamari soy sauce

MILLET

Place millet in sauce pan with broth, oil, salt, and cumin. Cover and bring to a boil. Once boiling, simmer for 40 minutes. (A simmer plate (also sometimes called a "flamer tamer") can be helpful during the simmering process to insure that the millet will not burn to the bottom of the pan.)

ROASTED VEGETABLES

While millet is cooking, roast vegetables. Toss onion, carrots, garlic, oil, and salt in a bowl. Transfer to baking sheet (it should not need to be oiled since the vegetables are oiled) and roast in a 450 degree F (230 degree C) oven (no need to preheat oven) for about 40 minutes, or until the vegetables are not hard, and have browned. During the last 30 minutes of roasting, toss vegetables every 10 minutes to ensure they do not burn on any one side.

FINISHING

When millet is finished cooking, stir in chilies, beans, pine nuts, and tamari. When vegetables are roasted, add those to the millet mixture as well. If you are using left over millet, it might be clumpy. Take some extra time to mash all the ingredients together so the millet is not in large clumps.

Dish can be eaten now if you do not want to make patties. To continue and make patties, you have two choices.

First is to let the mixture cool and firm up just enough so you can handle it to make patties with your hands (could take about an hour). Second is to refrigerate the mixture overnight, and then form patties which can be baked.

BAKING PATTIES

To prepare the patties:

Put parchment paper down on a baking sheet (if you don't have parchment paper, you can oil your baking sheet).

Patties can even stick a little to a non-stick baking sheet which messes up the patties, so I greatly prefer parchment paper because it always makes for very easy removal.

Using your hands (probably want to keep them a little wet), take about 1/3 cup of the mixture, shape it into a patty, and place it on a the baking sheet. If the mixture seems a little dry or crumbly, and it is difficult to form the patties, add some water until it gets a little mushy so that the patties can be easily formed, and so they stay together. If the mixture seems a little too wet, add some brown rice flour. Repeat making patties using all of the millet-bean mixture. You should end up with about 16 small patties. If desired, spray a little oil on each patty (this will make them brown nicely and give them a lightly crisp crust).

Roast in a 400 degree F (200 degree C) oven (no need to preheat oven) for about 25 minutes, or until the patties are golden brown and have crispy edges. Flip the patties half way through to get both sides brown and so they do not burn on any one side. If the mixture was cold from the refrigerator when you started, check to make sure that the patties are sufficiently warmed through.

VARIATIONS:

- For richer patties, add some ground pumpkin seeds when combining millet, beans, and vegetables.
- Use leftover cooked millet and leftover roasted vegetables for faster preparation.
- If you would rather not spend the time roasting the vegetables, you could saute them in the olive oil, and add the salt at the end. This takes less time, but requires more attention than roasting.
- This mixture can also be formed into small bite sized servings, and served as an appetizer (very suitable finger food).

MUSHROOM-GARLIC MIXTURE

Rice-Sweet Potatoes-Collard Torte

Preparation Time: 2 hours

Serving Ideas: Serve with "15-Creamy Roasted Garlic Sauce" (see recipe).

- This dish is very fun to present to a crowd because it is quite beautiful and delicious.

- The quickest way to make this dish is to use leftovers such as: roasted orange root vegetables (sweet potatoes and/or carrots - e.g., "Roasted Root Vegetables" (see recipe)) and leftover braised greens (kale, collards, and/or broccoli - e.g., "Kale with Sun-Dried Tomatoes" (see recipe)). Alternatively, use other various leftovers (e.g., refried black beans and "Roasted Mexican-Style Vegetables" (see recipe)) to make a new dish in this layered torte style.

RICE

1 3/4 cups brown rice, short-grain, washed

4 cups no-salt-added vegetable broth, (or water)

1/2 teaspoon sea salt

2 tablespoons tahini

SWEET POTATO FILLING

2 1/4 pounds sweet potatoes, cut into 1" cubes (about 3 medium sweet potatoes)

1 teaspoon dark (toasted) sesame oil

1/4 teaspoon sea salt

1/4 cup pecans

COLLARD GREEN FILLING

1/2 teaspoon dark (toasted) sesame oil

1 medium onions, chopped

1 pound collard greens, chopped (about 16 leaves)

1/4 teaspoon sea salt

RICE

Prepare the rice by combining the rice, water, and sea salt in a pot. (This recipe uses a bit more liquid than would normally be used to cook rice, but this is because we want the rice to be wet and soft when it is finished cooking.) Cover and bring to a boil. Turn to low and simmer for 1 hour.

Once rice is finished cooking, stir in tahini and set aside.

SWEET POTATO FILLING

While rice is cooking, bake the sweet potatoes. Toss cut potatoes, oil, and salt in a bowl.

Transfer to baking sheet (it does not necessarily need to be oiled since the potatoes are oiled) and roast in a 450 degree F (230 degree C) oven (no need to preheat oven) for about 50 minutes, or until the vegetables are not hard,

and have browned. During the last 30 minutes of roasting, toss vegetables every 10 minutes to ensure they do not burn on any one side.

When potatoes are finished roasting, remove from oven and blend in a food processor with pecans. Set aside.

COLLARD GREEN FILLING

While rice is cooking and potatoes are roasting, prepare the collards. Heat a skillet over medium-high heat and add oil. Saute onion and collard greens, sealing them one at a time (about 11 minutes total). Add the sea salt and cook for about 3+ minutes.

Briefly blend mixture in a food processor. I prefer the collards not completely pureed, but rather still with some texture.

TORTE ASSEMBLY

To assemble the torte, completely oil a 10 inch round spring form pan (especially the bottom) (or use a deep dish pie pan). Spread half of the rice in the bottom of the pie pan. Spread sweet potato filling on top of bottom rice layer. Then spread on the collard filling, and finally the remaining rice as the top layer.

Bake in a 375 degree F (190 degree C) oven (no need to preheat oven and no need to cover the pan unless it starts looking too browned on top) for 30 minutes. Let cool out of the oven for 10 minutes. Either serve it from the pan, or turn it out upside down on to a large platter. Garnish as desired (such as, eatable flowers, shredded carrots, or parsley). Cut triangle pie shaped slices to serve.

VARIATIONS:

- Replace either the sweet potato filling or the collard green filling with a black bean filling (this can be made similar to the collard green filling using black beans instead of collards).

- Use kale or chard in place of collard greens.

Saffron-Garbanzo Rice Pilaf in Filo Purse

Makes 8 servings.

Preparation Time: 1 hour, 20 minutes

Serving Ideas: Serve with "15- Cream Sauce"

Nutrition Facts

Servings Per Recipe 8

PILAF

1/4 teaspoon saffron threads

1/4 cup hot water

1 teaspoon olive oil

1 large onion, diced

2 medium carrots, diced

3 celery stalks, chopped

1 1/2 cups garbanzo beans, cooked, drained (a 15 oz. can is about 1 1/2 cups)

1 1/4 cups brown basmati rice, washed

2 servings 04-Preserved Lemons, chopped (half of one whole lemon)

1/4 teaspoon sea salt (or maybe a little more depending on the salt level in the preserved lemon soaking liquid - see directions)

1/3 cup preserved lemon soaking liquid (the liquid that was used to preserve the above lemons)

2 1/4 cups no-salt-added vegetable broth, (or water)

FILO PURSE

240 grams whole wheat filo, thawed (the weight of different fillos varies) (overall, need about 12 18"x13" sheets)

1/4 cup olive oil, for brushing (overall quantity used will depend on amount brushed on each sheet)

GARNISH

1 serving 04-Preserved Lemons, sliced in 4 slivers (one quarter of a lemon)

PILAF

In a small bowl, soak saffron threads in the hot water. Save for later in the recipe.

Heat a pot (appropriate for cooking rice on the stove top) over medium-high heat and add oil. Saute onion, carrot, and celery, sealing them one at a time (about 20 minutes total).

Add the rice and beans and cook (stirring frequently) for 2 minutes.

Add the chopped preserved lemon, salt, liquid that was used to preserve the lemon, the broth, and the saffron with the saffron soaking liquid. (Note: the preserved lemon soaking liquid can be very salty, so use

less salt if you want the overall dish to be less salty; the amount of preserved lemon soaking liquid called for in this recipe is based on a soaking liquid from the "04-Preserved Lemons" recipe in this book; if you use a different preserved lemon recipe, the soaking liquid may end up to be more or less salty, so adjust as needed.)

Cover pot and bring to a boil. When boiling, turn heat to low and simmer for 55 minutes.

Turn off heat.

FILO PURSE

Lay a sheet of parchment paper on a baking sheet. Lay down one sheet of filo on the parchment paper, and brush with olive oil. Repeat with all filo sheets. Mound pilaf in the center of the filo sheets, and fold filo edges up and over the top of the pilaf, tucking the edges in. Brush top of purse with olive oil. Bake in a 375 degree F (190 degree C) oven (no need to preheat the oven) for 30 minutes; you want the top filo layer to have a golden brown appearance, but cover it with foil if it gets to dark but the pilaf filling is not yet heated through. Make sure pilaf filling is hot all the way through; sometimes when the pilaf filling has been made a day in advance and refrigerated, additional baking time will be needed to heat the purse all the way through.

GARNISH

Cut purse into wedges. When serving, garnish with slivers of preserved lemon.

VARIATIONS:

- Use white beans or cubes of fried tofu instead of garbanzo beans.

VEGETABLES

4 servings 12-Roasted Tempeh and Vegetables

QUINOA

3/4 cup quinoa, washed

1 1/2 cups no-salt-added vegetable broth, (or water)

1/2 teaspoon sea salt (or 2 cups of leftover cooked quinoa and skip quinoa cooking instructions)

FINISHING

2 cups frozen green peas

1 tablespoon tamari soy sauce

1 1/2 teaspoons ground rosemary

VEGETABLES

If not already prepared, start to make the roasted tempeh and vegetables dish (see recipe).

QUINOA

Once quinoa is washed, place it in a sauce pan with broth and sea salt, cover, and bring to a boil. Once boiling, turn to low, and simmer for 15 to 20 minutes.

FINISHING

Once the quinoa is cooked, add the frozen green peas, tamari, and rosemary and mix into the hot quinoa. Mix in the roasted tempeh and vegetables. Briefly blend half of this mixture in a food processor and mix it back into the unblended half.

At this point, the mixture can be refrigerated and prepared later, or can be made into cutlets immediately.

BAKING

To make the cutlets:

Put parchment paper down on a baking sheet (if you don't have parchment paper, you can oil your baking sheet). Cutlets can even stick a little to a non-stick baking sheet which messes up the cutlets, so I greatly prefer parchment paper because it always makes for very easy removal.

Form cutlets (square patties) with hands and place cutlets on baking sheet. If the mixture seems a little dry or crumbly, and it is difficult to form the cutlets, add some water until it gets a little mushy so that the croquettes can be easily formed, and so they stay together. If the mixture seems a little too wet, add some brown rice flour.

Overall, you want about 8 cutlets.

If desired, spray a little oil on each cutlet (this will make them brown nicely and give them a lightly crisp crust). Bake in a 400 degree F (200 degree C) oven (no need to preheat oven) for 25 minutes. Flip cutlets and bake another 15 minutes, or until they are golden brown and have crispy edges. If the mixture was cold from the refrigerator when you started, check to make sure that the cutlets are sufficiently warmed through.

VARIATIONS:

- Use rice in place of the quinoa and then cook the rice for 55 minutes.
- This mixture can also be formed into small bite sized servings, and served as an appetizer (very suitable finger food).

Sicilian Rice Balls (Arancini di Riso)

Makes 8 servings.

Preparation Time: 2 hours

Serving Ideas: Serve with some steamed vegetables with no added fat.

- The original, decidedly non-vegan, recipe of this Italian treat was given to me by my friend Joe Ferr, with the challenge to "veganize" the recipe. This version of the recipe is much slimmer than the original which called for butter, Romano cheese, egg yolks, egg whites, chopped meat, and then the deep frying.

- An easy way to grind flax seeds is in a coffee grinder.

Nutrition Facts

Servings Per Recipe 8

RICE

- 1 1/2 cups brown rice, short-grain, washed
- 3 cups mushroom broth (or water with a 1/4 teaspoon sea salt)
- 1/4 teaspoon sea salt

"MEAT" FILLING

- 3 tablespoons olive oil
- 14 ounces gimme lean - sausage style, cut in small dice
- 1 large onion, finely chopped
- 6 garlic cloves, finely chopped
- 1/2 teaspoon ground black pepper
- 6 ounces tomato paste

REMAINING INGREDIENTS FOR RICE

- 2 tablespoons tahini
- 1/4 cup vegan Parmesan cheese alternative
- 5 ounces frozen peas
- 2 tablespoons ground flax seed
- 1/4 cup water
- 1 cup cornmeal

RICE

Prepare the rice by combining the rice, broth, and sea salt in a pot. Cover and bring to a boil. Turn to low and simmer for 50 minutes.

"MEAT" FILLING

While rice is cooking, prepare the filling. Heat a skillet over medium-high heat and add oil. Add small dice of gimme lean sausage, onion, and garlic, sealing them one at a time (about 15 minutes total). Add the pepper and tomato paste and cook for about 3+ minutes. Set aside until rice is ready.

FINAL RICE PREPARATIONS

When rice is finished cooking, stir the tahini and "vegan cheese" into the rice. Then add the frozen peas which will help cool the hot rice mixture a little so it will be easier to handle.

ASSEMBLY

In a bowl, using a fork, whip ground flax seed and water together. This will form a mixture a little like egg whites. In another bowl, place the cornmeal so it will be easy to roll the rice balls in the cornmeal.

When rice is cool enough to handle, using wet hands, make a pancake shaped disk of rice, place some "meat" filling in the middle, and close the rice around it. You don't want the rice layer to be too thick, so make it as thin as possible, but so it still contains the "meat" filling. Roll rice ball in the flax-water mixture, and then dredge in the cornmeal. Set completed rice ball aside, and continue making rice balls. You should end up with about 16 balls.

FINAL FRYING OR BAKING

Just prior to serving, deep fry rice balls (this is the traditional method). If you don't want to have the added fat that come with deep frying, or just do not want to bother, place rice balls on a baking sheet and bake in a 400 degree F (203 degree C) oven (no need to preheat oven) for about 45 minutes, or until balls are lightly brown and crispy.

Stuffed Portabella Mushrooms

Makes 4 servings.

Preparation Time: 30 minutes

Serving Ideas: Serve with a dollop of "15-Tofu Sour Cream" (see recipe).

Nutrition Facts

Servings Per Recipe 4

2 pounds portabella mushrooms

(weight with the stems)

(want 4 medium-sized mushrooms)

2 teaspoons olive oil

1/8 teaspoon sea salt

1/8 teaspoon sea salt

3 servings 11-Millet-Bean Patties

(prepared, but not baked/roasted)

(see recipe)

Take the stems out of the portobella mushrooms and set aside to use for another dish. Brush dirt from mushroom caps. Gently wash the caps, but minimize the amount of time the mushroom is in contact with water, and use as little water as possible. Lightly coat the outsides of the mushroom caps with olive oil and then with 1/8 teaspoon of salt.

Place caps on baking sheet (it should not need to be oiled since the mushrooms on the outside are oiled) with the insides of the caps facing upwards. Sprinkle the other 1/8 teaspoon of salt over the insides of the mushroom caps.

Spoon millet-bean patty mixture on top of the mushroom caps forming a small "hill" (do not overfill as mushrooms shrink when they are cooked). Roast in a 450 degree F (230 degree C) oven (no need to preheat oven) for about 25 minutes, or until the are well done, but not completely dried out.

Serve with "15-Tofu Sour Cream" or with "15-Creamy Roasted Garlic Sauce".

VARIATIONS:

- Simply use leftover cooked grain mixed with some leftover roasted or sauted vegetables for faster preparation of this dish.

Vegetable Strudel

Makes 15 servings.

Preparation Time: 1 hour, 20 minutes

Serving Ideas: Serve with "15- Cream Sauce"

- This is one of the few recipes in this cookbook that contains gluten (from the whole wheat filo). I have included this recipe because because it is an interesting pie/pastry, but simply can not be made without gluten because filo needs to be made with a flour containing gluten to achieve the desired effect. The recipe in the form shown below is not suitable for people who want to or need to avoid gluten. The filling is free of gluten, and could be baked in a dish by itself, with a non-gluten pie crust (see recipe), or with a non-gluten biscuit topping.

- This strudel is nice to serve as a brunch as well.

- This recipe makes a large pan; if you have leftovers, they freeze very well.

Nutrition Facts

Servings Per Recipe 15

VEGETABLE MIXTURE

1 1/2 pounds Swiss chard

(stems removed and chopped)

(leaves chopped)

1 tablespoon olive oil

3 medium leeks, chopped

6 medium carrots, sliced

2 pounds asparagus, sliced

1 1/2 cups pine nuts

1/2 teaspoon ground nutmeg

1/2 teaspoon ground black pepper

2 teaspoons sea salt

240 grams whole wheat filo, thawed

(the weight of different fillos varies)

(overall, you need 12 18"x13" sheets)

1/4 cup olive oil, for brushing

(overall quantity used will depend on amount brushed on each sheet)

VEGETABLE MIXTURE

Remove the stems from the Swiss chard, and chop. Set aside. Chop Swiss chard leaves. Set aside separately. Heat a skillet over medium-high heat and add oil. Saute the chopped leeks for about 3 minutes. Add the chopped Swiss chard stems, and cook another 3 minutes. Add carrots, and cook another 3 minutes. Add asparagus, and cook until all vegetables are soft. Add chopped Swiss chard leaves, and cook until wilted. Stir in pine nuts, nutmeg, pepper, and salt, and cook a couple more minutes; turn off heat.

ASSEMBLY

To assemble the strudel, oil a large (about 9"x13") baking pan. Lay 1/4 of the filo sheets (about 3 18"x13" pieces) into the bottom of the pan, brushing each layer of filo with olive oil. Spread about 1/3 of the vegetable mixture on top of this first layer of filo. Continue this filo-filling layering until all filling is used, and then top with the last layer of filo (always brushing it with olive oil). There should be 4 layers of filo (with 3 sheets per layer), and 3 layers of filling.

Cover pan with foil, and bake in a 375 degree F (190 degree C) oven (no need to preheat the oven) for 30 minutes, then remove foil and bake 10 minutes more to give the top filo layer a golden brown appearance. Make sure filling is hot all the way through; sometimes for a thick strudel when the filling has been made a day in advance and refrigerated, additional baking time will be needed to heat the strudel all the way through. Slices of strudel freeze very well.

VARIATIONS:

- To make a similar dish without any gluten (that is, without the filo), put the filling into a non-gluten pie crust and bake (instead of pulling the filling between filo sheets).

- Use combinations of vegetables (e.g., zucchini, red bell pepper, turnips, etc.)

- To lower the fat a little, be as sparing as possible with the olive oil when brushing it on the filo sheets, and use half as many pine nuts in the vegetable mixture.

Tempeh and Tofu Dishes

Barbequed Tempeh

Preparation Time: 5 minutes

- A simple, high-protein, iron-rich, satisfying, home-style dish that has lots of flavor, and fairly low in fat.

- Just combine, heat, and eat.

8 ounces tempeh, thawed and cubed

4 servings 15-Barbeque Sauce, (see recipe)

In a skillet, gently cook tempeh in sauce for about 5+ minutes to integrate flavors. If you want the sauce to be thicker, cook a few minutes longer.

VARIATIONS:

- "Barbequed Seitan" - use drained and sliced prepared seitan (cooked wheat gluten) instead of tempeh - do not use seitan if you are sensitive or allergic to gluten.

- "Barbequed Baked Beans" - use beans (primarily pinto, but other types should be good too) instead of tempeh.

Braised Tempeh and Cabbage

Makes 6 servings.

Preparation Time: 40 minutes

Servings Per Recipe 6

CABBAGE

1 teaspoon olive oil

4 medium onions, chopped

10 garlic cloves, chopped

2 1/2 pounds cabbage, cut in 1" pieces

1 tablespoon caraway seed

1/2 teaspoon sea salt

TEMPEH

16 ounces tempeh, defrosted

2 teaspoons olive oil

2 cups sauerkraut "juice"

(the liquid in a jar of sauerkraut after the sauerkraut is taken out)

(can also use pickle juice)

CABBAGE

Heat a thick bottomed pot over medium-high heat and add oil. Saute onion, garlic, and cabbage sealing them one at a time (about 14 minutes total). Add the caraway seed and sea salt and cook for about 3+ minutes.

TEMPEH

While the cabbage is cooking, cut tempeh into thin (1/4" thick) strips. Rub oil on tempeh strips. Heat large skillet on medium to medium-high heat. Add tempeh strips to skillet. Seal/brown one side of the tempeh strips. Flip over and seal/brown the other side (may need another teaspoon of oil if you don't feel like the amount rubbed on the strips was enough).

When sealed, add sauerkraut juice and cook over medium-high heat until all the liquid is absorbed. At this point, lower the heat a little and cook until the tempeh has dried out and, if possible, has become a little crispy again (be careful not to burn the tempeh).

Serve tempeh strips on top of the braised cabbage.

Nutrition Facts

Servings Per Recipe 6

TEMPEH

16 ounces tempeh, defrosted

SAUCE

2 tablespoons ginger juice, fresh (squeezed from fresh, grated ginger root)

14 ounces coconut milk

1 cup no-salt-added vegetable broth

1 tablespoon coconut extract

2 tablespoons brown rice syrup

3 tablespoons white miso

5 garlic cloves, minced

1/4 teaspoon sea salt

3 tablespoons coconut shreds

Slice defrosted tempeh cross-wise to create 3 inch by 1/2 inch strips. Place sliced tempeh in bottom of a 9x9 inch baking pan.

Combine all sauce ingredients in a sauce pan, and heat. Once this comes to a simmer, pour it over tempeh in baking dish.

Bake dish in a 450 degree F (230 degree C) oven (no need to preheat oven) until most of the liquid is absorbed into the tempeh (about 45 minutes). About half way through baking, flip the tempeh in the pan so all sides of the tempeh absorb the sauce evenly, and so both the top and the bottom have a chance to get a little brown. Remove from oven, and gently mix the tempeh so the sauce covers more evenly.

Nutrition Facts

Servings Per Recipe 6

2 teaspoons sesame oil

1 teaspoon ginger juice, fresh (squeezed from fresh, grated ginger root)

1 tablespoon coconut extract
2 tablespoons water
1/2 teaspoon sea salt
1/2 tablespoon ume vinegar
3 tablespoons coconut shreds

Cut tofu into medium-sized cubes. Heat a large skillet (works best if it is non-stick) on medium heat, and when it is hot, add the oil and then the tofu. Saute, flipping the tofu cubes occasionally, so they get a little crispy and brown on all sides. In a small bowl, mix together the ginger juice, coconut extract, water, sea salt, and ume vinegar. Once the tofu cubes achieve a nice firm texture and are slightly browned, and while the pan is hot, add the liquid mixture, stirring to get all the tofu some contact with the liquid (so it all get flavored). Turn off heat and mix in the coconut shreds.

Pan Fried Tofu with Preserved Lemon

Makes 4 servings.

Preparation Time: 30 minutes

Nutrition Facts

Servings Per Recipe 4

2 teaspoons olive oil

16 ounces firm tofu (pressed to remove as much water as possible)

4 servings 04-Preserved Lemons, chopped (one whole lemon)

1/4 teaspoon sea salt (or maybe a little more depending on the salt level in the preserved lemon soaking liquid - see directions)

1/4 cup preserved lemon soaking liquid (the liquid that was used to preserve the above lemons)

GARNISH

1 serving 04-Preserved Lemons, sliced in 4 slivers (one quarter of a lemon)

Cut tofu into medium-sized cubes. Heat a large skillet (works best if it is non-stick), and when it is hot, add the oil and then the tofu. Saute, flipping the little tofu cubes occasionally, so they get a little crispy and brown.

Once they achieve a nice firm texture, add the chopped preserved lemon, salt, and liquid that was used to preserve the lemon, and cook on a medium to medium-high heat until the sauce absorbs into the tofu (maybe 5 minutes).

(Note: the preserved lemon soaking liquid can be very salty, so use less salt if you want the overall dish to be less salty; the amount of preserved lemon soaking liquid called for in this recipe is based on a soaking liquid from the "04-Preserved Lemons" recipe in this book; if you use a different preserved lemon recipe, the soaking liquid may end up to be more or less salty, so adjust as needed.)

Turn off heat. When serving, garnish with slivers of preserved lemon.

VARIATIONS:

- Try with preserved limes instead of lemons.

- "Preserved Lemon-Tofu Rice" - mix the resulting pan fried tofu with lemon in with hot cooked rice.

BROCCOLI

2 cups broccoli florets

1/2 cup broccoli stalks, peeled, sliced
(florets and stalks from 1 bunch)

VEGETABLES AND TEMPEH

1 small onion, thinly sliced

3 large carrots, cut into 1/2" pieces

8 ounces tempeh, thawed, diced small

5 garlic cloves, halved

1 1/2 teaspoons dark sesame oil

1 teaspoon dried basil

1 teaspoon sea salt

WITH THE BROCCOLI FLORETS

1/2 teaspoon dark sesame oil

1/4 teaspoon sea salt

FINISHING

1 tablespoon sweet sherry, (or mirin)

BROCCOLI

To prepare the broccoli: a) cut off the florets, b) peel the stalks, and c) slice the stalks.

VEGETABLES AND TEMPEH

Toss the sliced broccoli stalks with the cut onions, carrots, tempeh, garlic, oil, basil, and salt in a bowl. (Leave the broccoli florets aside for now).

Transfer to baking sheet (it should not need to be oiled since the vegetables are oiled) and roast in a 450 degree F (230 degree C) oven (no need to preheat oven) for about 35 minutes (check near the end of 35 minutes to make sure they are not getting too browned; if they are, move on to the next step with the broccoli florets).

BROCCOLI FLORETS

Toss broccoli florets, oil, and salt in a bowl. Add these florets to the baking sheet and mix with the tempeh/carrot mixture. Continue to roast until the vegetables are not hard, and have browned (about 20 to 30 more minutes).

Toss vegetables every 10 minutes during this final period to ensure they do not burn on any one side.

FINISHING

When vegetables are not hard any more and broccoli florets are lightly browned, remove from oven and sprinkle

with sweet mirin.

VARIATIONS:

- Use other vegetable combinations such as zucchini, cauliflower, fennel, potatoes, etc.

Sweet Ginger Tempeh and Sweet Potatoes

Makes 8 servings.

Preparation Time: 1 hour

- See the "Glossary of Ingredients" for information about making ginger juice.

Nutrition Facts

Servings Per Recipe 8

VEGETABLES

1 small onion, sliced thin

1 pound sweet potatoes, cut into 1" pieces (about 2 medium sweet potatoes)

2 teaspoons dark sesame oil

1 teaspoon sea salt

3 small zucchini, cut 1/2 inch thick

1 teaspoon dark sesame oil

1/4 teaspoon sea salt

TEMPEH

8 ounces tempeh, defrosted

SAUCE

1/2 cup no-salt-added vegetable broth, (or water)
1 cup pineapple-coconut juice/nectar
1 tablespoon raisins, seedless
1 tablespoon coconut shreds
1/4 teaspoon ground nutmeg
1/2 teaspoon ground cinnamon
5 garlic cloves, minced
1 1/2 teaspoons ginger juice, fresh (squeezed from fresh, grated ginger root)
1 tablespoon maple syrup
1 teaspoon dark sesame oil
1/2 teaspoon sea salt

VEGETABLES

Place the sliced onion and cut sweet potato in a large bowl. Add the sesame oil and toss to coat vegetables. Add the sea salt and toss again. Transfer vegetables to a baking sheet (no need to oil the pan if it is non-stick since the potatoes are oiled, but you probably want to put a little oil on the pan if it is a regular pan). Place zucchini in a bowl, and toss with oil and salt in the same way. These will not be added to the baking sheet now because they cook much faster than sweet potatoes. Put these zucchini aside to be added to the baking sheet later.

TEMPEH

Slice defrosted tempeh cross-wise to create 1 inch by 1 inch squares. Place sliced tempeh in bottom of a loaf pan (if you are doubling this recipe, use a 9x9 inch baking pan, and if you are more than doubling this recipe, use a 9x13 inch baking pan or multiple pans). The overall goal is to have all the tempeh slices covered in sauce when they are in the baking pan.

SAUCE

Combine all sauce ingredients in a sauce pan, and heat. Once this comes to a simmer, pour it over tempeh in baking dish.

BAKING

Place both the sweet potato/onion baking sheet and the tempeh baking pan (with sauce) into an oven and bake (roast) at 450 degree F (230 degree C) (no need to preheat the oven) for about 30 minutes. At this point, add the prepared zucchini (oiled and salted) to the baking sheet with the sweet potatoes. Mix the sweet potato and zucchini together. Additionally, flip the tempeh in the baking pan so all sides of the tempeh absorb the sauce evenly, and so both the top and the bottom have a chance to get a little brown. Put both the baking sheet and baking pan back into the oven and continue baking/roasted until the sweet potatoes are not hard, and have browned. This could take another 20 minutes, but could be longer to get the sweet potatoes soft. During these last minutes of baking, gently mix the sweet potatoes and zucchini every 10 minutes to ensure they do not burn on any one side. The tempeh sauce should be bubbling (and a little more than half of the sauce absorbed into the tempeh) after a total of 50 minutes, and at that point, the tempeh can be removed. Once the sweet potatoes are soft, remove from oven. Pour both the tempeh (with the sauce) and sweet potatoes and zucchini into a large bowl, and gently mix the tempeh and vegetables so the sauce covers the vegetables as well.

Makes about 6 cups.

VARIATIONS:

- Add pineapple chunks to the sauce.

Tempeh with a Mediterranean Tomato-Olive Sauce

Makes 6 servings.

Preparation Time: 1 hour

Serving Ideas: Serve over polenta.

Nutrition Facts

Servings Per Recipe 6

TEMPEH

16 ounces tempeh, defrosted

SAUCE

6 ounces tomato paste
1 cup no-salt-added vegetable broth
2 cups red wine
1/2 cup sucanat sugar
(or granulated sugar)
1 tablespoon dried basil
2 tablespoons dried oregano
1/2 cup chopped olives
8 garlic cloves, minced
2 tablespoons balsamic vinegar
2 tablespoons olive oil
1/2 teaspoon sea salt

Slice defrosted tempeh cross-wise to create 3 inch by 1/2 inch strips. Place sliced tempeh in bottom of a 9x9 inch baking pan. Combine all sauce ingredients in a sauce pan, and heat. Once this comes to a simmer, pour it over tempeh in baking dish.

Bake dish in a 450 degree F (230 degree C) oven (no need to preheat oven) until most of the liquid is absorbed into the tempeh (about 45 minutes). About half way through baking, flip the tempeh in the pan so all sides of the tempeh absorb the sauce evenly, and so both the top and the bottom have a chance to get a little brown. Remove from oven, and gently mix the tempeh so the sauce covers more evenly.

VARIATIONS:

- Try using pressed tofu (or even drained garbanzo beans) instead of tempeh.

Teriyaki Tempeh

Makes 3 servings.

Preparation Time: 15 minutes

Nutrition Facts

Servings Per Recipe 3

8 ounces tempeh, defrosted

1 teaspoon dark (toasted) sesame oil

1 tablespoon Tamari soy sauce

1 tablespoon sweet sherry, (or mirin)

Cut tempeh into thin (1/4" thick) strips. Rub oil on tempeh strips. Heat large skillet on medium to medium-high heat. Add tempeh strips to skillet. Seal/brown one side of the tempeh strips. Flip over and seal/brown the other side (may need another teaspoon of oil if you don't feel like the amount rubbed on the strips was enough). When sealed, transfer to plate, and splash tamari and sherry over tempeh, mixing to coat evenly. If you want it more dried out and crispy, place strips into a hot oven and bake for a few minutes to desired consistency.

Collards with Corn and Red Bell Pepper

Makes 8 servings.

Preparation Time: 25 minutes

- Collards are one of the very nutritionally dense greens (like kale).

- Be careful not to overcook greens. If you have had boiled greens, and did not like them, give this dish a try as greens prepared in a saute method are much more palatable than boiled greens (at least some of us think so). This dish could convert some of those who have not liked greens in the past.

Nutrition Facts

Servings Per Recipe 8

1/2 teaspoon olive oil

1 large onions, chopped

1 medium red bell peppers, diced

3 pounds collard greens, chopped (thick stems removed) (no long stringy pieces) (about 48 leaves)

1/2 teaspoon cayenne

1 cup corn, frozen

3/4 teaspoon sea salt

Preparation Time: 25 minutes

Serving Ideas: Serve as a sauce over rice and roasted vegetables.

- Kale is one of the very nutritionally dense greens (like collards).

"CREAM"

1/4 cup almond butter

1 cup water

2 tablespoons white miso

1/2 teaspoon ground white pepper

creamed kale dish). Finely chop the leaves.

Heat a large pot over medium-high heat and add oil. Saute onion and kale, sealing them one at a time (about 12 minutes total). Add kale and cream mixture to a food processor and blend until mixture is fairly smooth (about 5 minutes). Transfer back to the large pot and heat for about 3+ minutes.

Glazed Arame

Makes 8 servings.

Preparation Time: 10 minutes

- Arame is the most mild of the sea vegetables, so it is a good introductory sea vegetable.

The saltiness and sweetness added to this side dish also helps mellow the sea vegetable.

Nutrition Facts

Servings Per Recipe 8

3 ounces arame sea vegetable

1 teaspoon dark (toasted) sesame oil

2 tablespoons Tamari soy sauce

2 tablespoons sweet sherry, (or mirin)

4 tablespoons brown rice syrup

Heat large skillet on medium to medium-high heat. Add oil to skillet, spread around, and add arame, quickly mixing to get oil evenly on all arame. Seal for about 4 minutes, then add tamari, sherry, and brown rice syrup.

GREENS

1 teaspoon olive oil

2 large onions, chopped

3 medium carrots, sliced

3 pounds mixed hearty greens, chopped

(e.g., collards, kale, and/or chard)

(thick stems removed)

(no long stringy pieces)

(about 48 leaves)

CHICKPEA MIXTURE

1 1/2 cups chickpeas, cooked, drained

(a 15 oz. can is about 1 1/2 cups)

3/4 cup red wine

1/2 teaspoon sea salt

2 tablespoons Sucanat sugar, or granulated sugar

FINISHING

1/2 teaspoon sea salt

GREENS

Heat a skillet over medium-high heat and add oil. Saute onions, carrots, and mixed hearty greens sealing them one

at a time (about 14 minutes total).

CHICKPEA MIXTURE

While vegetables are sauteing, combine chickpeas, wine, first portion of salt, and sugar in a small pan and cook together. Cook gently until there is no liquid left. The idea is to impact a sweetened red wine flavor into the chickpeas.

FINISHING

When vegetables are done sauteing, add second portion of salt, stir, and then add the chickpeas mixture and cook for about 1 minute.

1 serving = about 3/4 cup.

VARIATIONS:

- Instead of using chickpeas, try another bean such as white beans.

Indian Cauliflower

Makes 6 servings.

Preparation Time: 50 minutes

Nutrition Facts

Servings Per Recipe 6

1 tablespoon olive oil

2 teaspoons ground coriander

1 tablespoon cumin seed

3/4 teaspoon ground fenugreek seed

2 medium onions, diced

6 cups cauliflower florets

(from one large head of cauliflower)

(don't cut the florets, instead try to separate them with your fingers so they are about 2 inch cubes)

3 medium fresh tomatoes

1 teaspoon sea salt

Heat large skillet on medium to medium-high heat and add oil. Add spices and cook until fragrant. Add onion and saute for a about 3 minutes. Then reduce heat and continue to saute until the onions are very brown (about 10 more minutes). Reduce heat more if the onions start to stick or the bottom of the pan starts to brown too much. Add cauliflower and mix so the onions get tossed around with the cauliflower. Cook for about 10 minutes without a lid, stirring occasionally, so the cauliflower gets little small light brown areas.

Cut the fresh tomatoes in half, and with a shredder where the cut side of the tomato is down, shred the flesh of the tomatoes into the pan. After shredding the flesh in, you should just be left with the skin which you can discard. Do this for all the fresh tomato halves. Add the salt and mix the tomato flesh in with the onions and cauliflower. Cover pan, and cook for about 20 minutes until the cauliflower is tender and the sauce thickens a little. Spoon some of the tomato/onion sauce on a plate, add cauliflower, and serve.

VARIATIONS:

- Use canned tomato sauce instead of fresh tomato puree to make the preparation faster.

Roasted Root Vegetables

Makes 8 servings.

Preparation Time: 40 minutes

- I love to roast vegetables because it is so simple, requires very little attention, and always dramatically heightens the flavors of the vegetables. Root vegetables always get sweeter with roasting.

Nutrition Facts

Servings Per Recipe 8

1 large onion, thinly sliced

2 large potatoes, cut into 2" pieces

3 1/2 pounds sweet potatoes, cut into 2" pieces
(about 4 large sweet potatoes)

2 large carrots, cut into 1" pieces

5 garlic cloves, crushed

1 1/2 teaspoons olive oil

2 tablespoons dried dill weed

1 teaspoon sea salt

Toss cut vegetables, oil, dill, and salt in a bowl.

Put parchment paper down on a baking sheet (if you don't have parchment paper, you can oil your baking sheet).

The vegetables can even stick a little to a non-stick baking sheet which messes up the vegetables, so I greatly prefer parchment paper because it always makes for very easy removal.

Transfer vegetables to the baking sheet and roast in a 450 degree F (230 degree C) oven (no need to preheat oven) for about 50 minutes, or until the vegetables are not hard, and have browned. During the last 30 minutes of roasting, toss vegetables every 10 minutes to ensure they do not burn on any one side.

- Add sliced celery (during the last 30 minutes of roasting) for a crunch.

- Use different types of herbs or spices in place of dill weed (such as rosemary, basil, or garam masala for an Indian flavor).

Sauted Collards with Preserved Lemon and White Beans

Makes 6 servings.

Preparation Time: 25 minutes

- Be careful not to overcook greens. If you have had boiled greens, and did not like them, give this dish a try as greens prepared in a saute method are much more palatable than boiled greens (at least some of us think so). This dish could convert some of those who have not liked greens in the past.

Nutrition Facts

Servings Per Recipe 6

1 teaspoon olive oil

2 medium onions, chopped

2 servings 04-Preserved Lemons, chopped
(half of one whole lemon)

1 1/2 cups white beans, cooked, drained, rinsed

(a 15 oz. can is about 1 1/2 cups)
1/2 teaspoon sea salt
(or maybe a little more depending on the salt level in the preserved lemon soaking liquid - see directions)
2 tablespoons preserved lemon soaking liquid
(the liquid that was used to preserve the above lemons)
2 pounds collard greens, chopped
(thick stems removed)
(no long stringy pieces)
(about 32 leaves)

GARNISH

1 serving 04-Preserved Lemons, sliced in 4 slivers
(one quarter of a lemon)

Heat a large pot over medium-high heat and add oil. Saute onions until they start to brown a little. Add the chopped preserved lemon, and cook another 3 minutes. Add the beans, salt, and the preserved lemon soaking liquid, and continue to cook for another 3 minutes. (Note: the preserved lemon soaking liquid can be very salty, so use less salt if you want the overall dish to be less salty; the amount of preserved lemon soaking liquid called for in this recipe is based on a soaking liquid from the "04-Preserved Lemons" recipe in this book; if you use a different preserved lemon recipe, the soaking liquid may end up to be more or less salty, so adjust as needed.)

Add the chopped collard greens, and cook until wilted. Do not overcook.

GARNISH

When serving, garnish with slivers of preserved lemon.

VARIATIONS:

- Instead of using white beans, try another bean such as black eyed peas or garbanzo beans.

Servings Per Recipe 10

4 pounds butternut squash

(about 2 medium squash)

(or another type of winter squash)

(or about 25 ounces of canned pumpkin)

1/2 teaspoon olive oil

1 tablespoon ground fennel seeds

3/4 teaspoon ground cardamom

1 tablespoon green chili peppers, minced

(or 1/8 teaspoon cayenne pepper)

2 tablespoons maple syrup, (or to taste)

1/4 teaspoon sea salt

GARNISH

3 tablespoons lime juice

(from 2 fresh limes)

Wash squash. Place whole squash in the oven, and bake at 375 degrees F (190 degrees C) (no need to preheat the oven). Bake until the entire squash is very soft (test with a fork). This could take around an hour, but test to be sure the squash is soft so that it will puree very easily.

Cut open, seed, and peel the cooked squash. The squash should be very tender when it is fully cooked. Place the pulp in a food processor and puree (alternatively, puree by hand in a bowl with a hand mixer or a potato masher; if it is not very soft, then it is better to use the food processor because it can puree better).

(I think the flavor of fresh baked squash is better, but you can also use canned pumpkin puree if you don't have time to bake your own. If using canned squash, this dish is very quick to make.)

Heat a skillet over medium-high heat and add oil. Add the fennel seed, cardamom, and the chilies. After a few seconds, add the squash puree, maple syrup, and salt. Cook, stirring frequently, until thickened and heated through, about 5 minutes. Before serving, sprinkle with lime juice. Makes 4 cups.
